BANK RATE STANDS,
STALE AFTER CLOSE

Brokers' Loans Show Increase of \$67,000,000 for Week, Report After Market Shows.

By the Associated Press.

NEW YORK, April 25.—Marking up of the call money rate from 12 to 12 1/2 per cent, coupled with widespread rumors of an increase in the rediscount rate and a large gain in brokers' loans, unsettled the stock market after several successful attempts had been made to rally the general list. Prices slid off rapidly towards the close.

Plans to brokers' and dealers by New York Federal Reserve member banks for the week ending April 24 were announced. The Federal Reserve Board effected a market today as \$5,492,000, an increase of \$67,000,000 compared with the preceding week. Loans for own account of \$47,000,000, for account of others \$1,492,000, and for account of others \$1,000,000.

The New York Federal Reserve bank today made no change in the rediscount rate of 5 per cent, as was announced after close of market.

Publication of the quarterly report of the General Motors Corporation after the close of the market, showing \$1.37 a share net gain of 19 1/2 in the first quarter of 1929, proved somewhat of a disappointment, but it was explained by President Sloan as due to large charge-offs in connection with new models and to a shortage of cars, particularly in the light truck division.

General Motors, which had taken in large blocks at advancing prices on Tuesday, was under pressure most of the day, ending a point lower at \$5 1/4.

Allis Chalmers Down.

Allis Chalmers, which soared more than 15 points yesterday, fell back to 10 1/2 today. The half of the company, which was admitted today, dropped from an early high of 11 1/2 to 10 1/2. U. S. Steel common, Bethlehem Steel, and General Motors, Montgomery Ward, Hudson Motors and Pan-American B all closed one to two points lower.

American Can was one of the industrials to show a day's net gain on the day, closing 1 1/2 for a net gain of 2 1/2. Coca-Cola, Graphophone, American Telephone, Grand Union Stores and W. Grand Stores also were up on the upside, strength of the last two being associated with news of a large chain store merger.

Exchange Market Dull.

Leading commodity markets were again reactionary. Wheat dropped about 2 cents a bushel on reports of rains in the Central and West. Corn closed unchanged to 1/2 cent lower. Cotton fell 1/16 to \$2 a bale on reports of favorable crop weather. Foreign exchange trading was quiet, with the leading currencies holding steady pending further developments in the reparations talks.

Banks called only \$20,000,000 in loans during the day, but there was a scarcity of new funds coming into the market because of fears that the New York Federal Reserve bank's rate would be advanced after the close of the market.

Bethlehem Steel Earns \$4.05.

The Bethlehem Steel Corporation, reporting its quarterly earnings of \$4.05 a share, closed at \$45.50 after the close of the market. Directors also voted to increase the capitalization from \$100,000,000 to \$150,000,000, and to issue new shares for every 100 shares held at \$55 a share. The highest price in more than a year.

Closing stock prices with other tables and market news will be found on pages 35, 36 and 37.

HOUSE PASSES FARM BILL;
DEBENTURE PLAN RULED OUT

Measure in Form Approved by Hoover Now Goes to Senate Practically in Form It Left Committee.

By the Associated Press.

WASHINGTON, April 25.—The House farm relief bill was passed today by the House.

The vote was 287 to 24.

The Clerk had passed but little beyond the half-way mark in calling the roll when the 215 votes necessary to give a majority vote of the House had been recorded in favor of passage.

The measure was approved virtually in the form reported by the Agriculture Committee.

It now goes to the Senate where a measure similar in general purport but containing the controversial export debenture plan is under consideration.

The House bill has the approval of President Hoover.

The measure would create a Federal farm board and place at its disposal a revolving fund of \$500,000,000 for use in loans in an effort to control crop surpluses. This board would be assisted by stabilization corporations.

This board would be assisted by stabilization corporations.

The House vote was taken after

a week of discussion and after unsuccessful efforts had been made to incorporate in the measure the equalization fee principle of the vetoed McNary-Haugen bill.

A futile effort also was made to incorporate the export debenture proposal. Three changes in the bill were adopted at the suggestion of the Agricultural Committee.

The vote ended a week spent in considering the measure in the House, two days of which had been given to consideration of the more than 40 amendments offered.

A move to incorporate the export debenture plan in the House farm relief bill was rejected in the House today on the ground that the proposal was not in order.

Representative Mapes, (Rep.) Michigan, presiding at the time, held the debenture plan could not be embodied in the measure as it proposed a plan of farm relief different from that outlined in the bill. His decision precluded a vote on the proposal. Representative Jones (Dem.) Texas, offered the motion to include the debenture provision.

SENATE EXPECTING
CAULFIELD TO ACT
ADVANCES BUDGET

Hastily Engrosses Bill When Governor Intimates He Will Send Special Message.

THEN EXECUTIVE
CHANGES PLANS

House, Without Debate, Passes Bales Measure for Budget System and Now Goes to Upper Chamber.

By CURTIS A. BETTS,
A Staff Correspondent of the Post-Dispatch.

JEFFERSON CITY, April 25.—The Democratic Senators anticipating a special message to the Legislature from Gov. Caulfield on budget, central purchasing and consolidation legislation, this morning hurriedly called up the budget bill and engrossed it, getting the jump on the Governor. The bill had been lying on the informal calendar a week and the Democrats had hoped it would remain there indefinitely.

After the Governor had sent word to Senator Cave, Democratic floor leader, that he desired a joint session of the Senate and House for a afternoon, a request which could mean only that the Governor wished to deliver a special message, Cave called up the budget bill and it was engrossed without debate.

Engrossment of a measure by the Senate or House means it is placed upon the calendar for a vote.

Special Message Abandoned.

After the engrossment of the bill it was announced from the Governor's office that there would be no special message.

The Governor did not intimate the subject he intended to discuss in the message, but budget legislation, and its accompanying bill are the only matters in which the Governor is particularly interested at this stage of legislative proceedings. He was known to be especially anxious to have the budget bill taken from the informal calendar and put on its way to ward passage and it was assumed that was the subject he wished to discuss.

It will be recalled that a week ago Cave laid the bill away after the Senate had struck out of its provisions the supervision of the income and inheritance tax collections to be taken from the State Auditor and State Treasurer and placed with the Budget and Revenue Commission proposed to be created by the budget bill.

Cave then announced that the bill probably would not be taken up unless leaders of the Republican administration took active steps toward restoring the sections which had been cut out by the bill.

Gen. Marinis urged a sharp division of airplanes at home and overseas so that it might be known exactly how many airplanes any country had at its disposal at home and in time of crisis. He insisted upon fixing the distance within which aircraft would be regarded as belonging to home forces and, though he did not mention North Africa, the delegates got the impression he wanted French airplanes stationed in Morocco and other Mediterranean colonies considered as home units.

"We must know," he said, "whether airplanes can be made available as part of home forces." Count Massigli objected to the proposed fixing of distance and insisted this belonged to the domain of a possible later international conference on disarmament.

Marinis retorted that a fundamental principle was involved and announced that he would submit a written amendment tomorrow.

Soviet Proposal Voted Down.

An amendment by the Soviet delegation that a reduction of airplanes and dirigibles should be applicable as compared with those in existence on Jan. 1, 1929, caused Hugh S. Gibson, the American representative, to arise and characterize it as outside the competence of the preparatory commission.

"If we were not in favor of reduction, we should not be here," said Gibson.

The Soviet suggestion was rejected, only Maxim Litvinoff, Soviet vice commissar for Foreign Affairs, voting in its favor.

Italy for Parity With France.

It was said here today that the Italian Government would ask for parity with France on land and sea forces.

French officials were said to be unable to see the justice of such demands and insisted that extensive French colonial possessions and coasts open on two seas were sufficient reasons for maintenance of a navy superior to Italy's.

So acute has the problem of satisfying Italy, at least on paper, begun to appear that delegates to the conference are busy in mental in arranging the gathering.

MUECH NOT LIKELY
TO ACCEPT NEW TERM

Counselor Says He Probably Will Give Up Public Service for Practice.

City Counselor Julius T. Muech said today he probably would not accept reappointment if it should be tendered to him by Mayor Miller. He said he believed he should give up public service to devote himself to private practice in order to build up his financial resources.

Muech has served as City Counselor under Mayor Miller since the summer of 1925, and his appointment has been considered generally one of the best made by the Mayor. Since the re-election of Mayor Miller, it has been generally understood around the City Hall that the office, which carries a salary of \$8000 a year, again would be offered to Muech by the Mayor.

Today it was reported that Muech intended to resign, but when asked about it, he said he merely was considering declining reappointment, but that he had not definitely made up his mind about it. He said that he felt in justice to himself and his family he should take up practice so that he could lay aside some money.

Muech is a son of former Circuit Judge Hugo Muech. As he had been in the City Hall for a number of years, he has conducted a number of public utility valuation and rate cases for the city, notably those of the Laclede Gas Light Co. and the St. Louis Public Service Co.

Mayor Miller told a reporter he had been pleading with Muech to accept reappointment and had not given up hope that the Counselor reconsider his decision to resign. The Mayor described Muech as one of the best Counselors St. Louis ever had, and added that he was not to be blamed for wanting to retire, since a man of his experience and ability could make more money in private practice.

The Mayor said he did not know whom he would select for the place if Muech insisted on leaving. Asked whether Associate Counselor Jules R. Field might be promoted to it, the Mayor said Field was a good man, but he did not know whether he would be chosen. Field was a leading executive in the Mayor's recent campaign for reappointment.

WEBSTER GROVES POLICE
CATCH 24 TRUANT MULES

Officers Take Up Chase After Citizens Complain of Damage to Yards and Gardens.

Twenty-four mules escaped from a grading camp corral at Webster Groves, at 7 o'clock last night. As they overran front yards and gardens or cantered down the Missouri Pacific Railroad tracks, the telephone of Desk Sergeant Strassinger buzzed angrily with demands of residents that the stampede be checked.

Patrolmen Neal and Stevenson were dispatched to round up the mules, and in a spirit of "tally-ho and yodels away" tore down several clotheslines and set out in pursuit. Three hours later, two tired policemen once more barred the corral and sat down in relief.

The mules were back home, after chasing ranging from a block to three-quarters of a mile. Webster Groves was peaceful again.

The little excursion was the second of its kind for the mules, as they broke out April 7.

CLASH AT GENEVA
OVER AIR POWER

Mussolini's Representative Wants Limits of Home and Overseas Plane Fleets Defined.

By the Associated Press.

GENEVA, April 25.—The Preparatory Commission on Disarmament today heard the first skirmish in the controversy over military parity between Italy and France.

The skirmish took the form of a debate between Alberto de Marini, short bulky Italian General representing Premier Mussolini, and Count Massigli, tall slender French delegate.

The discussion was over the division of air fleets into home and overseas forces.

In the light of Italy's expected disarmament proposals reach the negotiation stage that she have a sea power equal to that of France this first clash was of absorbing interest.

Clash Over Air Forces.

Gen. Marinis urged a sharp division of airplanes at home and overseas so that it might be known exactly how many airplanes any country had at its disposal at home and in time of crisis. He insisted upon fixing the distance within which aircraft would be regarded as belonging to home forces and, though he did not mention North Africa, the delegates got the impression he wanted French airplanes stationed in Morocco and other Mediterranean colonies considered as home units.

"We must know," he said, "whether airplanes can be made available as part of home forces." Count Massigli objected to the proposed fixing of distance and insisted this belonged to the domain of a possible later international conference on disarmament.

Marinis retorted that a fundamental principle was involved and announced that he would submit a written amendment tomorrow.

Soviet Proposal Voted Down.

An amendment by the Soviet delegation that a reduction of airplanes and dirigibles should be applicable as compared with those in existence on Jan. 1, 1929, caused Hugh S. Gibson, the American representative, to arise and characterize it as outside the competence of the preparatory commission.

"If we were not in favor of reduction, we should not be here," said Gibson.

The Soviet suggestion was rejected, only Maxim Litvinoff, Soviet vice commissar for Foreign Affairs, voting in its favor.

Italy for Parity With France.

It was said here today that the Italian Government would ask for parity with France on land and sea forces.

French officials were said to be unable to see the justice of such demands and insisted that extensive French colonial possessions and coasts open on two seas were sufficient reasons for maintenance of a navy superior to Italy's.

MISSOURI STATE POLICE MEASURE BEATEN IN HOUSE BY FIVE VOTES

71 to 48 Is Roll Call on Bill Urged by Attorney-General and Bankers' Association.

SPONSORS PLAN TO GET ANOTHER BALLOT

Six of 19 St. Louisans Support Legislation Opposed by Organized Labor and Attorneys.

By BOYD F. CARROLL, Jefferson City Correspondent of the Post-Dispatch.

JEFFERSON CITY, April 25.—The State police bill backed by Attorney-General Stratton Sharlet and endorsed by the Missouri State Bankers' Association and several other organizations, was defeated by the House late yesterday.

The vote was 71 in favor to 48. The vote in favor fell five short of the 76 votes required to pass a bill in the House.

Sponsors of the bill announced last night that another attempt would be made to pass the bill, through reconsideration of the vote by which it was defeated, within the three days allowed under House rules.

The measure was defeated through a combination of the opposition of organized labor, attorneys in the House who have opposed criminal reforms, a few Democrats who feared the police force would give the Governor a strong political machine, and rural members who declared the police force would involve a heavy expense.

How St. Louisians Voted.

Six of the 19 St. Louis Representatives voted for the measure. They were: Albert J. Applebaum, attorney, 3008 Louisiana avenue; George D. Fisher, merchant, 4401 McPherson avenue; Louis C. Hehl, manager of Cindarella Hall, 3242 South Jefferson avenue; J. Marvin Krause, attorney, 3705 Clemens avenue; Frank X. Moore, assistant treasurer, Union Easton Trust Co., 1379 Temple avenue; and Waltheim M. Moore, clerk, 2540 Lawton avenue.

Grant M. Allen, attorney, 319 North Sixteenth street, cast his vote for the bill after verification had been demanded and he was officially recorded as not having voted.

The nine St. Louis members who voted "No" were: Joseph A. Bauer, businessman, 2307 Cass avenue; Joseph W. Davies, real estate and building, 4715 Greer avenue; Albert A. Huber, bonding and real estate, 1435 South Second street; Arthur A. McLeod, theatrical performer, 2191 North Grand boulevard; O. J. Papko, superintendent, 3220 Palm street; Harry C. Paechter, merchant, 1868A South Twelfth boulevard; William Schwartz, manager, 3519 Louisiana avenue; George W. Williams, dentist, 4973 Quincy avenue; and Speaker John Parker, attorney, 1432 Blackstone avenue.

Author Denied Final Argument.

Representative E. R. Meyer of Kansas City, author of the bill, was deprived of an opportunity to make the closing argument for the bill, a courtesy always accorded to the author of a bill in House practice, by Speaker Parker ordering a roll call.

Meyer had requested five minutes to close the argument and answer attacks upon the bill and was recognized by Parker. The Speaker then recognized Representative Elmer of Kent County, an opponent of the bill, who asked Meyer questions antagonistic to the bill. When Elmer had concluded, Meyer asked for his time, but the Speaker ordered the vote. Parker voted against the bill.

Representative Whitaker of Hickory County, the voiceless member of the House, defended the bill in a statement read by a clerk. He answered attacks on the cost of the proposed force with an argument that laws designed to protect the public against criminals were not intended to be revenue measures.

"This bill is intended to create a State police force that can be instantly put into operation at any point or place in the State, and equipped to move with the speed of the criminals themselves," Whitaker said in his statement. "The bill is the logical answer to the present crime question."

"We do not expect laws against criminals to be self supporting. They are not enacted as revenue measures. They are intended for the protection of the public."

Protests of the press against secret sessions were recognized today with a note from Jonkheer Loudon, president of the commission, that it was not his intention to make secrecy the rule.

Mussolini Organ Talks Fascist Formula Inspired Gibson.

ROME, April 25.—An editorial which clearly reflects Premier Mussolini's frequently expressed opinions on naval disarmament, emphasizing Italy's unwillingness to reduce her fleet to the lowest point acceptable to other Continental Powers, appeared yesterday on the front page of the authoritative Tribune.

It makes clear the sharp distinction drawn in the official Italian mind between Anglo-American naval differences and continental controversies on the same subject and expresses the Italian opinion that Italy is concerned primarily with the strength of the French navy.

the protection of the property and lives of citizens."

Representative Putnam of Howell County attacked the bill as a vicious measure and declared organized labor unions were opposed to it. He read a letter from officers of the State Federation of Labor, opposing the bill. Putnam said that if the bill was passed "there would be a lot of new faces in the next General Assembly."

Representatives Heege of St. Louis County, Snyder of Lewis County and Elmer of Dent County, all attorneys, opposed the bill, and attacked it as an invasion of local self government.

The bill would have created a State police force of a superintendent and 20 patrolmen under control of the Governor, with police jurisdiction throughout the State, and, in addition, authorized the appointment of not to exceed 30 employees of the State Highway Department as deputy patrolmen, with power to enforce all criminal laws along the State highways. The bill required that not more than half of the policemen and deputies should be affiliated with the same political party.

When the bill was engrossed a provision was written into it limiting the life of the police force to two years from the effective date of the law establishing it. This would have necessitated the next Legislature taking action to extend the legislation, otherwise it would end automatically at the expiration of two years.

ITALY AND FRANCE CLASH AT GENEVA OVER AIR POWER

Continued From Page One.

the preparatory disarmament commission conference wondered whether an agreement between England and the United States might not best be made prior to a five-power conference on naval reductions. It was been little progress toward actual agreement upon terms of a draft treaty.

A high French official has explained that France hoped the Preparatory Commission would be able to submit a draft treaty to the September assembly of the League of Nations, even if this involved another session of the Preparatory Commission this summer. He thought it best that the naval question be postponed until then, when the British general elections would be past.

He added France's willingness to accept the 175 rail laid down in the Washington treaty extended only to capital ships, and that it was clear that his Government could not accept the figure for cruisers, destroyers and submarines. He did not think the United States contemplated demanding such a ratio, he said.

Although Gibson's proposal heartened the Preparatory Commission conference and gave it new impetus, there has been little progress toward actual agreement upon terms of a draft treaty.

Yesterday was given over to debate on the German proposal of prohibition of bombing from the air and the delegates made no real start on fixing the guiding principles of reduction of air armaments.

Protests of the press against secret sessions were recognized today with a note from Jonkheer Loudon, president of the commission, that it was not his intention to make secrecy the rule.

RIVER AT ST. LOUIS TO RISE TO 35 FEET BY SUNDAY

Continued From Page One.

new electric light posts, which some distance east of the rising river have caused difficulties in the disposal of the city's garbage, which amounts to 250 tons a day. The water has reached the top of the dock at the foot of Chouteau avenue and instead of dumping collection wagon loads into barges it has been necessary for several days to hire a clam-shell bucket, at \$75 a day, to unload the vehicles. Hog Island, 15 miles downstream, where a contractor feeds large droves of hogs with the garbage, is threatened with inundation and city officials may have to find some emergency means for disposing of garbage, as the swine may have to be removed.

Alton is expected to have a crest of 30 feet, nine feet over flood level, on Sunday. Its reading today was 27.8 feet. The crest in 1927 was 31.5 feet.

St. Charles, on the Missouri River, will have a level of 31.2 feet on Sunday. Flood mark is 25; today's reading was 28.6. Two years ago the crest was not quite 33 feet.

A crest in this district in the anticipated flood a foot or so lower than that of the Missouri River, the inundation of land will not be so extensive as before, although it will be widespread. Comparatively little damage is looked for in St. Louis and the surrounding towns, but many farms will feel the effect.

Highway 94 Flooded.

Missouri Point, the long neck of St. Charles County low land between the Missouri and Mississippi Rivers, is being submerged to a considerable extent. Most of Missouri Highway No. 94, which runs from St. Charles to Alton, was reported under water. The concrete road across the point connecting the twin toll bridges at Alton and Port Bellefontaine is above water, having been built on a small elevation. Bridge company officers said the flood crest would put the overflow close to the pavement, but they are planning to protect it and think it will remain open.

U. S. Highway No. 40 has several inches of jackwater over it, for about 500 yards, between East St. Louis and Fairmount City.

A levee protecting 500 acres of wheat and 100 acres of alfalfa and timothy on Gabaret Island, in the Mississippi below Chain of Rocks and near the Illinois shore, broke yesterday. The crops were damaged about \$10,000, said representatives of the Niedringhaus estate, which owns the island. Livestock has been placed on the second floor of a barn for safety. Workmen have been reinforcing the levee since March 1.

Caused by Heavy Rains.

The Meramec River is not in flood, except near its mouth, where backwater from the Mississippi has caused it to spread through club-house sections. Similarly, the mouths of the River des Peres and all the creeks entering the Mississippi are flooded.

Additional heavy rains, not now anticipated, would increase the flood, said Forecaster Hayes. The rivers have been high for a number of weeks but the present situation is due to hard rains yesterday afternoon and evening in Iowa and northeastern and central Missouri.

The Mississippi flood extends from Keokuk, Ia., to Cape Girardeau, Mo., and is not expected to reach farther downstream. Between St. Louis and Keokuk the stream is rising now. Grafton, Ill., the mouth of the Illinois, likely will have a 26-foot stage on Sunday, eight feet above flood mark. Its reading today was 24.2 feet.

who is a member of the Fascist Grand Council, carries far more weight than any other press comment on the same subject.

The most important passage in Gibson's speech, the editorial declares, is that in which the American spokesman affirms that the disarmament problem cannot be reduced to a technical formula but must be the political premises which enjoy the maximum of sincerity and the will to attain a common goal.

LA FOLLETTE STATUE UNVEILED AT CAPITOL

Friends of Late Senator Attend Ceremonies on Gift of Wisconsin.

By the Associated Press.

WASHINGTON, April 25.—A statue of the late United States Senator Robert Marion La Follette, the gift of his native State of Wisconsin, was unveiled today in Statuary Hall. Grouped around it during the ceremony were many of the friends who had followed the Senator's tempestuous career, among them Gilbert E. Roe, New York attorney, who assisted him in many of the investigations he conducted; Claude G. Bowers, editorial writer for the New York Evening World, and Democratic keynoter at the last convention; and the Senator's two sons, Philip F. La Follette and Senator Robert M. La Follette Jr. Mrs. La Follette, the widow, was detained in Madison, Wis., and could not be present.

La Follette, 65, was born in Wisconsin, and was a member of the Wisconsin State Bar. He was a member of the Wisconsin State Bar. He was a member of the Wisconsin State Bar. He was a member of the Wisconsin State Bar.

The statue depicts the Senator in a typical fighting mood, seated in a chair and about to spring from it as he so often did on the floor of the Senate.

La Follette, Blaine said, was the "outstanding figure" of Wisconsin's recent history. "This marble figure," he declared, "stands as evidence of Wisconsin's acknowledgment of her love for him, and he loved his native State. It is a token to the people of America, whom he served, from the people of Wisconsin."

He quoted La Follette's last words: "I am at peace with all the world, but there is a lot of work I could still do. I don't know how the people will feel toward me, but I shall take to the grave my love for them which has sustained me through life."

Other speakers included Dr. A. Eustace Hayden of the University of Chicago, Charles H. Crownhart, Associate Justice of the Supreme Court of Wisconsin; Victor A. Olander of the St. Louis Union, Bowers and Mabel Corey Costigan, wife of the former member of the Tariff Board.

Before the ceremonies began, the Senate adjourned to its members might participate in the memorial services held in Statuary Hall, where are clustered statues of other Americans chosen by their States for this honor. A gentle rain fell outside.

3-DAY SPECIAL

Never before have we offered such a value. A 3-piece set made of the finest washable, rubber and dust proof cretonne, regular price \$35.00, guaranteed to fit perfectly, for only \$23.95.

Estimates furnished without obligation. A ring on the phone will bring a salesman to your home.

FURTHER RAINS INCREASE DANGER AROUND QUINCY

Homes of 4000 Persons Threatened Following Break in Mississippi Levee South of the City.

NEW RISE IN RIVER IS PREDICTED

Lima Lake District Has Been Saved So Far by Work of Construction Company Crew.

By the Associated Press.

QUINCY, Ill., April 25.—The homes of 4000 people and the safety of more than \$4,000,000 worth of property lay at the mercy of the Mississippi River today.

Rain poured last night into the rivers to the north in Iowa, Illinois and Missouri after heavy showers the day before had caused a six-inch rise at Keokuk, and the Government observer here said the river would rise again.

Only the heroic efforts of a skilled engineer and construction crew which had been working on improvements have saved the 14,000-acre Lima Lake district, residents there stated, and the continued safety of the Gregory district, below Warsaw, Ill., on the Mississippi, is attributed to good luck. The Hunt district, just above the Lima Lake area, has had the benefit of its northern location, above the worst fury of the Mississippi.

Three Districts in Danger.

None of these three districts is considered out of danger now. Flooding of them would cause a loss of as much as \$1,000,000 and would rout about 250 families from their homes.

Already \$1,000,000 damage has been caused in the neighboring drainage tracts by the floods, which started in March and have broken all records for far as 1851 for height and duration.

Water had covered the South Quincy tract this morning and the recent residents were camped along the bluffs in tents furnished by the Red Cross, or were staying with friends.

Refugees Watch Water Rise.

Refugees stood watching water spreading relentlessly over what a few hours before had been their farms. They had refused to abandon faith in the levees while the more cautious ones were moving their belongings to safety.

From the river, looking in toward the district, one saw nothing but water and partly submerged houses. Only one home was found occupied by the Sheriff's boat patrolling the stream—a little shack huddled close up against the levee at a place near the southern end which had not yet been reached by the spreading flood. One of the occupants had lugged a stove, some buckets, cooking utensils and firewood upon the crown of the levee and was watching his partner carry corn up the dike.

"He can drag that corn up if he wants to," he commented dolefully. "I've moved it six times already and I'm through."

River Is Rising Again at Hannibal After 36-Hour Fall.

By the Associated Press.

HANNIBAL, Mo., April 25.—The Mississippi River here was at 20.9 feet this morning, starting its second rise after a gradual fall for 36 hours.

Torrential rains yesterday and last night over a wide area in the river valley and along streams

BOULDER DAM CONSULTING ENGINEERS ARE SELECTED

Secretary Wilbur Appoints Louis C. Hill, Andrew J. Wiley and William X. Durand.

By the Associated Press.

WASHINGTON, April 25.—Secretary of the Interior Wilbur today appointed Louis C. Hill of Colorado, Andrew J. Wiley of Idaho and William X. Durand of California as consulting engineers for the building of the Boulder Canyon Dam.

Hill supervised the construction of Roosevelt Dam, Elephant Butte Dam and Laguna Dam while a member of the field service of the Bureau of Reclamation. Wiley is an irrigation engineer with wide experience, having recently spent considerable time in India, where he supervised the construction of a number of irrigation projects for the British Government. Durand was for years professor in the engineering school at Stanford University. He has participated in a number of engineering studies of the Colorado River and in 1927 was a special adviser to the Reclamation Bureau on the then proposed development of the lower Colorado River. He served on the President's Aircraft Board in 1925 and was scientific attaché of the American Embassy in London during the war.

ILLINOIS STATE INCOME TAX BILL PASSED BY SENATE

By the Associated Press.

SPRINGFIELD, Ill., April 25.—Voting 97 to 19, the Illinois Senate yesterday passed a State income tax bill.

If the lower House takes similar action, and the Governor approves the measure, all incomes over \$1000 of unmarried and \$2000 of married persons will be subject to State tax. On incomes of \$5000 or less the tax would be 1 per cent; on incomes between \$5000 to \$10,000 it would be 2 per cent, and over \$10,000 it would be 3 per cent. An exemption of \$500 for each dependent would be allowed married persons.

This income tax law has been proposed in several sessions of the Legislature, but has never obtained the approval of both houses. It is a measure strongly endorsed by the Illinois Agricultural Association.

Six Killed in Factory Explosion.

By the Associated Press.

BERLIN, April 25.—Six persons were reported to have been killed and several injured in an explosion at a lead pencil factory in Nuremberg today.

which feed the Mississippi were reported, especially in Missouri, Iowa and Illinois. Almost all pointed reported rainfall of more than one inch. The precipitation here was 1.2 inches; Shelbyville, Mo., 3.20 inches, and Gorin, on the Fabius River, 2.75 inches. The Fabius, already bankful, reaches the Mississippi north of here in the levee districts which have been in danger for several days.

A section of the Mark levee above Hannibal was dynamited last night. This levee broke Sunday and water was "pocketing" at the lower end. Officials decided to dynamite it to relieve this condition. Other levees were reported to be still holding, although there was a heavy wind last night.

TWO OF SIX KILLED IN MID-AIR CRASH

bank, Mrs. Beauchamp killed herself. Until his death last night police had no knowledge that Dr. Brady was her son.

Several patients were in the waiting room when Dr. Brady was killed. Dr. Best, who witnessed the slaying, said he would be unable to identify the killers. Mrs. Walsh described the men and said she would know them if she saw them again.

Dr. Brady's wife learned of the murder when she went to police headquarters early today. She said she had no knowledge of her husband's business affairs.

Ferneke's sentence to prison followed conviction on a robbery charge. Five years ago, while awaiting trial for murder, he attacked the county jail, without success. He long has been notorious as a safe breaker.

NON-STOP FLYER'S PASS

Two British Aviators in California; on Way to California.

BAGDAD, Iraq, April 25.—Squadron leader A. G. Jones and flight lieutenant C. G. Jones, who are on a non-stop distance flight to California, England, passed over Baghdad at 10 p. m. Greenwich time, flying at great height.

At that hour the flyers had been in the air 23 hours and 22 minutes and covered about half of the distance of their objective.

Third Man in Holdup.

They related how they and a third man entered the Westminster bank, but three men and a woman, who had been in the bank, fled. They were taken to the police station, where they were held for questioning.

Baltimore authorities had been following Whittemore and his associates for several weeks, following identification of their photographs as witnesses to the bank robbery. The three robbers were said to have been assisted by a woman, who served as lookout.

Man Went to Hollywood.

Questioned further today, Whittemore admitted the third bank robber also had come to St. Louis, going on to Hollywood.

On this man's need for funds to finance his ambition to enter the movie industry, led to the bank robbery, Whittemore said.

For his part in the case, young Jenkins, the telephone operator, was recommended for promotion to clerkship at the first opportunity, and also will share in reward money.

WEDDING GIFTS DISMISSED.

Lloyd L. Held and Mother-in-Law Reach Agreement After Hearing.

Dismissal of a private agreement followed the hearing today of a suit by Dr. Lloyd L. Held, a school inspector of hygiene, to replace \$500 worth of household furnishings from his former mother-in-law, Mrs. Edgar Cecil, 1816 Pershing avenue, before Justice of the Peace Polito.

All the disputed articles were said by Mrs. Cecil's attorney to have been wedding gifts to her daughter, the former Mrs. Mabel Held, who died in Tucson, Ariz., in December, 1927. A silver clock, a toaster, a vacuum cleaner, a refrigerator and a refrigerator were included. Although Mrs. Cecil was not in court, another daughter, Mrs. George Blumeyer of the Congress Hotel, was present. Dr. Held has been again since the death of his first wife.

ARMY TO HOLD HEARING ON PLANE COLLISION

Coroner's Jury Places Blame for Six Deaths Near San Diego on Lieutenant.

By the Associated Press.

SAN DIEGO, Calif., April 25.—Soon after a coroner's jury today placed the blame for Sunday's airplane accident, which six persons were killed, on a lieutenant, the army announced it would hold a public hearing on the accident today.

The announcement came from Major I. S. Sneed, commanding aviation post.

The army's investigation has been going on since Sunday, when a plane piloted by Lieut. E. L. Maddux crashed into a Maddux airfield on its way to Phoenix, Ariz., the result that both fell into the jaws of a canyon on the outside of this city.

In part, the coroner's jury says that the Maddux plane was rammed by a United States plane piloted by Lieut. E. L. Maddux, which six persons were killed. Lieut. Howard W. Keefer, Rockwell Field, that would hold a public hearing on the accident today.

Whisperer Is Brother of Notorious Gang Leader Who Was Executed for Killing Prison Guard.

Two men arrested for speeding yesterday night and held for investigation when they tried to conceal \$74 from police, have admitted participation in the \$15,000 holdup of the Farmers and Merchants' Trust Co. of Westminster, Md., March 3.

The whisperer are: Rawlings Whittemore, 25 years old, of Baltimore, and Robert Minner, 25, formerly a brother of Richard "Red" Whittemore, the notorious gang leader hanged at Baltimore in 1925 for the murder of a prison guard.

Speeding along Page boulevard one of three automobiles which they bought in St. Louis, Whittemore and Minner were taken in custody by Motor Cycle Police on the street near the Police Station, where Minner, the driver, was being booked for speeding. He slipped a roll containing \$754 in bills to Whittemore, fearing that he would be searched and the money would be taken from him.

Detected by Phone Operator.

A 17-year-old telephone operator, William Ferie Jr., son of a policeman, observed the move and reported the matter to Police Capt. Walsh. The men were searched and a money was found on Whittemore.

Learning that the prisoners had been rooming at 5994 Delmar boulevard, police went there, including an additional \$173.50, including coins in bank wrappers and Postoffice Department stamps. They also found papers showing Whittemore had been paid for work on the Standard House of Correction last October.

In the belief the money was loot from a mail robbery, the serial numbers of some of the bills were traced to Postoffice inspectors at Chicago. They wired back that the numbers were those of bills taken from the Maryland bank holdup. Connected with this information, the officers, who had given their names as George Vaughn and Harry Miller, admitted they really were Whittemore and Minner, wanted for the bank robbery.

They related how they and a third man entered the Westminster bank, but three men and a woman, who had been in the bank, fled. They were taken to the police station, where they were held for questioning.

Baltimore authorities had been following Whittemore and his associates for several weeks, following identification of their photographs as witnesses to the bank robbery. The three robbers were said to have been assisted by a woman, who served as lookout.

On this man's need for funds to finance his ambition to enter the movie industry, led to the bank robbery, Whittemore said.

ARMY TO HOLD HEARING ON PLANE COLLISION

Coroner's Jury Places Blame for Six Deaths Near San Diego on Lieutenant.

By the Associated Press.
SAN DIEGO, Cal., April 24.—Soon after a coroner's jury yesterday had placed the blame for the Sunday airplane accident, which six persons were killed, on a lieutenant, it was announced that the army would hold a public hearing on the accident today. The announcement came from Major Robert L. Sneed, commanding the aviation post.

The army's investigation has been going on since Sunday, when a plane piloted by Lieut. Keefe crashed into a Maddux plane on its way to Phoenix, Ariz., and the result that both fell at the mouth of a canyon on the outskirts of this city.

In part, the coroner's jury says that the Maddux plane was piloted by Lieut. Keefe, who was killed. The jury also found that the Maddux plane was in violation of the rules of aviation when it crashed into the Keefe plane and is responsible for the accident and deaths of all persons in the said Maddux plane; and (the jury) further find that Lieut. Howard W. Keefe was criminally negligent in following and approaching said Maddux plane in 1926 for the murder of a person.

Five eye-witnesses testified that army pilot was starting at the time of the collision and further evidence of this was introduced when Coroner S. C. Kelly exhibited a sheet of paper on which Minnie Kelly of Phoenix, Ariz., a newspaper writer and a passenger on the air liner, is supposed to have noted that an army plane was starting nearby, probably on a few seconds before the crash occurred.

It was brought out at the hearing that the army plane struck the liner from above as it neared the completion of what was described as a combination wing over and loop, crashing head-on into the cockpit of the Maddux plane. Two executives of the commercial aviation company testified that yellow paint was found on the upper surface of the larger plane, indicating that the army plane struck it from above. The Maddux plane was painted gray.

NON-STOP FLYERS PASS BAGDAD
Two British Aviators in Air 28 Hours; on Way to Calcutta.
By the Associated Press.
BAGDAD, Iraq, April 24.—Squadron leader A. G. Jones Williams and Flight Lieutenant N. E. Jenkins of the British Royal Air Force, who are on a non-stop long-distance flight to Calcutta from England, passed over Bagdad at 3 a. m. Greenwich time, flying at great height.

At that hour the flyers had been in the air 28 hours and 22 minutes and covered about half of the distance of their objective.

THIRD MAN IN HOLDUP.
Whitmore authorities had been looking for several weeks, following identification of their photographs, to the bank robbery. Three robbers were said to be assisted by a woman, who served as lookout.

MAN WENT TO HOLLYWOOD.
Whitmore further today, Whitmore admitted the third man, who also had come to St. Louis, was going on to Hollywood. It was said the man's need for funds to enter the bank led to the robbery, Whitmore said.

WEDDING GIFTS DISMISSED.
Lloyd L. Heid and Mother-in-Law Reach Agreement After Hearing.
A matrimonial and a private agreement followed the hearing today, a suit by Dr. Lloyd L. Heid, public school inspector of hygiene, to recover \$500 worth of household furnishings from his former mother-in-law, Mrs. Edgar Cecil Heid, residing at 1234 E. Locust, St. Louis, was dismissed.

TWO MEN CONFESS \$5,000 HOLDUP OF MARYLAND BANK

They Will Return to Baltimore and May Plead Guilty.

INSPECTED WHEN ONE TRIES TO HIDE CASH
Member Is Brother of Notorious Gang Leader Who Was Executed for Killing Prison Guard.

Two men arrested for speeding yesterday night and held for investigation when they tried to conceal cash from police, have admitted participation in the \$5,000 holdup of the Farmers and Merchants' Bank of Westminster, Md., and is responsible for the accident and deaths of all persons in the said Maddux plane; and (the jury) further find that Lieut. Howard W. Keefe was criminally negligent in following and approaching said Maddux plane in 1926 for the murder of a person.

The prisoners are Rawlings Whitmore, 25 years old, of Baltimore, and Robert Minner, 25, who is a brother of George Whitmore, the notorious gang leader hanged at Baltimore in 1926 for the murder of a person.

Spreading along Page boulevard a line of three automobiles which were bought in St. Louis, Whitmore and Minner were taken in custody by Motor Cycle Policemen Charles Schaeffer. At the Dayton Police Station, where Minner, the driver, was being booked, he slipped a roll containing \$5,000 in bills to Whitmore, claiming that he would be arrested and the money would be used on him.

Detected by Phone Operator.
A 17-year-old telephone operator, William Frie Jr., son of a Baltimore man, observed the move and alerted the matter to Police Capt. The men were searched and money was found on Whitmore.

That the prisoners had been rooming at 5941 Delmar, police went there and, in the room, found three revolvers and an additional \$175.50, including cash in bank wrappers and Postoffice Department stamps. The three men had been passing the money to Police Capt. The men were searched and money was found on Whitmore.

THIRD MAN IN HOLDUP.
Whitmore authorities had been looking for several weeks, following identification of their photographs, to the bank robbery. Three robbers were said to be assisted by a woman, who served as lookout.

MAN WENT TO HOLLYWOOD.
Whitmore further today, Whitmore admitted the third man, who also had come to St. Louis, was going on to Hollywood. It was said the man's need for funds to enter the bank led to the robbery, Whitmore said.

WEDDING GIFTS DISMISSED.
Lloyd L. Heid and Mother-in-Law Reach Agreement After Hearing.
A matrimonial and a private agreement followed the hearing today, a suit by Dr. Lloyd L. Heid, public school inspector of hygiene, to recover \$500 worth of household furnishings from his former mother-in-law, Mrs. Edgar Cecil Heid, residing at 1234 E. Locust, St. Louis, was dismissed.

Daylight Saving Ballots Ready for Mails

THE 35,000 ballots in the daylight saving straw vote photographed before they were mailed out, and members of the supervisory committee. Left to right—Scott DeKins of the Chamber of Commerce, chairman; K. F. Niemoeller of the Associated Retailers, George M. Burbach of the Post-Dispatch, President Neun of the Board of Aldermen and W. T. Collins, veteran daylight saving campaigner who suggested the straw vote.

Daylight Saving Proposal Debated Over the Radio

"Out of Step Without It," E. M. Grossman Says—"No Use Gumming Everything Up," John B. Edwards Asserts.

"Shall we join the rest of the world in adopting daylight saving, or shall we continue out of step with the rest of the world?" asked E. M. Grossman, former attorney for the Board of Education, at a public hearing on the subject of daylight saving held last night at the Chamber of Commerce.

"There isn't any use, anyhow, in gumming everything up like this when we are getting along all right as we are," retorted John B. Edwards, former chairman of the Board of Election Commissioners, and Grossman's opponent in a debate on daylight saving last night from radio station KMOX.

Every tenth voter, totaling 35,000, has opportunity to express opinion on daylight saving on ballots mailed last night by the Chamber of Commerce and returned until midnight Sunday. The vote is to be counted Monday by an established tabulating concern under supervision of a "bi-partisan" committee, and the result to be submitted to the Board of Aldermen for whatever action it indicates.

Grossman pointed out that rich men pay for electric artificial sunlight, hospitals install special window panes to admit the healthful rays, and sick people travel to the Southland for the "sun cure."

California Sun and Babies.
"California's sunlight is the envy of the world," he declared. "Statistics show that California babies enjoy better health than those in the eastern part of the country. The sun receives credit for the fact that California babies double their birth weight in five months, whereas it takes six months for our babies to make that record."

Lose Coolest Hour of Sleep.
"If we push the clock ahead under daylight saving," he commented, "we would have to get out of bed in the coolest hour of the day, losing that hour for sleep, and work through the hottest part of the day. Many people who retire early would then be going to bed just after the sun had set and before the air had been cooled sufficiently to permit sleep."

PRIEST LEAVES \$40,000 ESTATE.
The Rev. John Wattermann Directs That Money Be Used for Charity.
The Rev. John Wattermann, pastor of St. Francis de Sales Church, who died April 19, left his \$40,000 estate to the Rev. J. A. Dubbert, pastor of St. Augustine's Church, to be used by him for religious and charitable purposes. The will was filed in Probate Court today.

U.S. COMMISSIONER AMY WREN QUILTS, TWO INQUIRIES ON

First Woman to Be Named to Place She Makes Accusations Against Brooklyn Federal Staff.

By Lensed Wire from New York.
NEW YORK, April 25.—The new investigation of phases of activity in Brooklyn Federal Court became public last night following the resignation of United States Commissioner Amy Wren, the first woman to hold that office in the United States.

United States Attorney William A. De Groot announced he would begin an immediate investigation of the charges made by Miss Wren that Assistant United States Attorney Albert B. Smith had discharged illegally a liquor violation charge against Charles J. Murry, pool room owner, and had suppressed from his superiors for six months knowledge of the fact that he was in possession of affidavits charging that Miss Wren had accepted money for letting Murry out on bail.

Examiners of the department of justice started an investigation of the activities of the Brooklyn Federal staff, and of reports that United States officers were accepting money for arranging bail for bootleggers at night after regular office hours.

Although Federal Judges Campbell and Inch are still considering charges against Miss Wren that she accepted money for going out at night to bail Volstead Act prisoners, the woman commissioner gave as her reason for resigning the fact that the fees of the staff were inadequate. She denied that she had ever accepted money for granting bail.

With her letter of resignation, which was accepted at once, Miss Wren gave out a statement in which she declared the halls of the Brooklyn Federal Building are filled with lawyers, runners, bondsmen and fixers, and that, although she attempted to clean the corridors, she was still forced to crawl over the "stomachs, legs and backs" of the crowd in getting to her office.

"I decided several days ago to investigate the conduct of my assistant, Mr. Smith, in ordering these affidavits charging Miss Wren with improper conduct," De Groot said.

"I will investigate to discover why Mr. Smith dismissed charges against these alleged liquor violators and under what authority. I will also investigate to find out why Mr. Smith and Investigator Reynolds failed to present the affidavits to me and why, after they had been sequestered for six months, they suddenly appeared in a newspaper. When I saw them in the newspaper, I was my first knowledge of them."

CLARENCE C. CLARK FORCED TO QUIT BORDER COMMISSION.
President Hoover Calls for His Resignation, More May Follow.
WASHINGTON, April 25.—President Hoover has asked for and obtained the resignation of Clarence C. Clark, former Senator from Wyoming, as chairman of the International Joint Commission, which handles a number of boundary and other matters between the United States and Canada. The Chief Executive has not yet selected a successor to Clark who is 58 years old.

Whether there are to be other changes in the personnel of the commission, which is made up of three members, has not been made clear but the information is given that Mr. Hoover desires more activity on the part of this body.

COUNTERFEIT TICKETS SOLD IN \$5,000,000 SWEEPSTAKES.
Number Forged on London Stock Exchange Lottery on Epsom Derby Unknown.
Copyright, 1929, by the Press and Publishing Co., Ltd., New York.
LONDON, April 25.—Forged tickets in the \$5,000,000 Stock Exchange Lottery on Epsom Derby were sold yesterday when sweepstakes officers examined several purchased from unauthorized salesmen.

The number of forged tickets already disposed of could not be estimated. Only the closest examination disclosed the forgeries detected yesterday, the spurious slips being printed on slightly paler paper and bearing a minute mistake in the reproduction of the original design.

Watermelons in Market.
The first carload of Florida watermelons this season was received here today. This is said to be the earliest date for watermelons to reach this market in the last 25 years. The car contained 1147 melons averaging about 24 pounds each, shipped from the extreme southern end of Florida.

GIRL PILOT READS BOOK WHILE IN AIR ON RECORD FLIGHT

Elinor Smith, 17, Eats Only Orange and Tomato in 26 Hours Aloft.

By the Associated Press.
ROOSEVELT FIELD, L. I., April 25.—Having regained the women's endurance flight record, Elinor Smith, 17-year-old pilot, may attempt a flight to Rome.

Her mother told of plans for the trans-Atlantic flight when Miss Smith brought her plane down yesterday after having been in the air 26 hours, 21 minutes, breaking the record of Louise McPherridge of Oakland, Cal., by four hours and 15 minutes. Mrs. Smith said backers had provided funds for the ocean flight.

Miss Smith, in telling of her flight, said failure of a stabilizer to function required her to hold the plane on an even keel by the stick, but despite this she found time to read "Tom Sawyer Abroad" while the big monoplane wheeled over the Long Island air fields. She said she stayed aloft after setting a new record, to finish the book.

Among the hundreds at the field to congratulate her when she landed was G. M. Bellanca, designer of the plane, who flew with his wife from New Castle, Del., to see the landing.

Two gallons of the 210 gallons of fuel with which she took off Tuesday noon were left in the tanks. Although she ate only an orange and a tomato of the food she took up, Miss Smith said she was not hungry when her mother took her to their home at Freeport, L. I.

CENTURY ELECTRIC CO. SUES TO RECOVER \$73,000 U. S. TAX.
Charges Levy on 1917 Income Assessments Was Illegal and Paid Under Protest.
The Century Electric Co. filed suit in Federal Court today for \$73,342.29, alleging illegal collection of Federal income tax in that amount. The company charges the Government with the violation of limitations when in 1924 it assessed an additional tax on 1917 income. The assessment was paid under protest in July, 1925, and subsequently a claim for refund was denied.

A woman who called to him, "Come here, Huey," "He played with her hair; he was admiring it," she said.

First public mention of the party which occurred on the night of a military raid on alleged gambling places near New Orleans came with publication in the newspapers of an affidavit by Miss Clifford. The Governor left the studio before the party was over to direct the raid from his hotel suite.

SEVEN REPORTED INDICTED IN CHICAGO GRAFT INQUIRY.
CHICAGO, April 25.—Indictments against six incumbents and one former trustee of the Chicago Sanitary District, charging malfeasance, will be returned by the Cook County Grand jury Monday. It was reported today. The men were not named.

WOMAN WHO POSED AS MAN SENTENCED.
"Col. Barker," in London, Gets Nine Months for Perjury in Marriage Record.
By the Associated Press.
LONDON, April 25.—Mrs. Irma Valerie Arkell-Smith, London's woman masquerader, who for many months passed as a man about town under the name of "Colonel Barker," was sentenced at the Old Bailey today to imprisonment for nine months on a charge of perjury in causing a false statement to be entered on the register of her marriage with another woman.

"Col. Barker" had pleaded guilty to this charge yesterday, but not guilty to a second degree charge of perjury in falsely representing herself as a retired Colonel in the British army.

In passing sentences the Recorder described the masquerader as "an unprincipled, mendacious and unscrupulous adventurer." She had in this case, he said, "profaned the house of God, outraged the decency of nature and broken the law of man."

He declared that so grave a defiance of law carried a maximum of penal servitude for seven years. The prisoner took the Court's castigation quietly and at its conclusion was immediately led away.

HULA DANCER SAT ON GOV. LONG'S LAP, SHE ASSERTS

Witnesses Tell Louisiana House Investigators of His Conduct at Mardi Gras Party.

By the Associated Press.
BATON ROUGE, La., April 25.—Gov. Huey P. Long, concerning whose conduct at a studio party in New Orleans testimony has just been taken, had ended his State-wide speaking tour today with a final rebuke of the Standard Oil Co., and the Senate was ready to meet to make arrangements to try him on impeachment charges of official misconduct.

With seven charges of impeachment voted against him—two alleging bribery and intimidation and five misapplication of State funds—the House investigated an entertainment for the Governor given by the New Orleans Association of Commerce at last Mardi Gras.

Testimony given by witnesses about the party in Danziger's studio-theater conflicted only in minor details. They said drinks were served, and a hula dancer who performed barefoot and in a straw skirt testified that she sat in the Governor's lap with her arm around her neck.

The evidence was admitted under the count charging Long with gross misconduct in public places. Danziger preceded Helen Clifford, the hula entertainer, as a witness. His party, he said, was attended by only the foremost people.

As to how many drinks the Governor took, Danziger testified, "or whether he drained the glass I saw him with, I cannot say. He had the glass in his hand most of the time I was there."

"As far as I was concerned," he added, "I had only one drink served to me."

"The idea was to have a jolly time and everybody was jolly." The witness was not positive whether the Governor sang at the party, but he saw him take a "few steps like a jig. He was just keeping time with the music."

A girl tried to sit in Long's lap, Danziger recollected, but the Governor shoved her away. He said, "I won't do that," the witness asserted.

Miss Clifford, however, said the Governor shoved her away, but pulled her back and she sat on his lap with "his arm around my neck."

"Everybody was drinking," she said, and added that the Governor "had plenty."

Miss Clifford remarked that the Governor danced under the rim of a cocktail glass, but that he spent most of his time on a settee with

TWO MEN HELDUP IN STREETS LOSE \$695

Negro Truck Driver Robbed of \$200 and Truck, Collector of \$495 and Car.

Lorenzo Hill, Negro chauffeur for the International Shoe Co., was held up by a Negro near the company's Madison factory, 1728 North Jefferson avenue, at 2:45 p. m. today, and robbed of his truck and \$200 which he had collected while delivering supplies to the company's 10 cafeterias.

Hill had parked his car in an alley adjoining the factory and was about to alight when the robber appeared with a revolver, took Hill's pistol, keys and money and drove away in the truck, south on Jefferson avenue. A passing police car stopped at the mouth of the alley, picked up Hill, and followed for several blocks in unsuccessful pursuit.

William Holt, a collector for the Hauschulte Realty Co. of 2407 North Broadway, was held up and robbed of \$495 by two men as he stepped into his coupe after making a rent collection at 1437 North Twentieth street at 3 p. m. today.

The men approached Holt from both sides, each pressing a pistol against his side and ordering him to turn over his money. They then got in Holt's machine and drove away. The loss was insured.

PRISONER WHO ESCAPED FROM HOSPITAL RECAPTURED.
Man Wounded After Holding Up Grocery, Cut Strap Holding Him to Bed and Fled.
Raymond Eschelbach, who escaped last night from the City Hospital, where he was a prisoner charged with robbery and assault to kill, was recaptured at noon today at the home of an aunt, Mrs. Lulu Martin, 1825 South Ninth street.

Eschelbach refused to discuss his escape and Mrs. Martin insisted that all she knew was that he came to her home at 4 a. m. stating that he had been released. Shot and dangerously wounded by a policeman April 11 after he had held up a grocery, Eschelbach was in Ward 16 on the fourth floor of the hospital, his right ankle strapped to the bed. He escaped by cutting the strap and descending a fire escape. An investigation is under way to determine whether Patrolman George Latal and Charles F. Schmidt, detailed to guard him, were negligent.

SEVEN REPORTED INDICTED IN CHICAGO GRAFT INQUIRY.
CHICAGO, April 25.—Indictments against six incumbents and one former trustee of the Chicago Sanitary District, charging malfeasance, will be returned by the Cook County Grand jury Monday. It was reported today. The men were not named.

"Night's Rest" very carefully made Mattress with 408 springs enclosed in individual muslin pockets, surrounded with 35 pounds of cotton felt, Damask tickings, full or twin size. (Seventh Floor.)

SHIP PASSENGERS TELL OF TRIP FATAL TO FOUR

Malaria Developed After Journey Inland on African-South American Cruise.

Special Cable to the Post-Dispatch. SOUTHAMPTON, England, April 25.—The Canadian Pacific liner Duchess of Atholl arrived here last night after her South American and African cruise during which four passengers died from malaria, apparently contracted during an inland trip in Africa.

Sir George McLaren Brown, European general manager of the Canadian Pacific Railway, said that judging from the message he received from the liner's captain, the illness the passengers contracted during the trip to Victoria Falls, Transvaal National Park, was probably from a swamp fly. Extremely hot weather was encountered along the African coast, according to some passengers. During the shore excursions they were bothered by mosquitoes and suffered from malaria.

During the trip to the falls the party was caught in torrential rains. Some sought shelter in a native village and others took cover under trees during which time, they said, they heard lions roaring in the jungle. They were eventually rescued by a relief party.

Lewis T. Tune, division manager of Bradstreet's financial directory of St. Louis, told the correspondent: "We lost Henry Norweb of New York at Mombasa. He was not at all in good health and really could not stand the trip through the Kruger National Park, near Durban. In his case I think the terrific heat had as much to do with his death as malaria. The next to die was Dr. Edward Hardenbrook of Rochester who overworked himself trying to see things."

"Mrs. Alice Ernecke of Hollywood, Cal., wasn't well when she started. My idea is she died of tropical fever. Luther Facey seems also to have been in ill health and could not stand the attack of the malaria germ. When you consider that the average age of passengers was 60 years, the fact that we had four deaths aboard is not surprising. They all died between Mombasa and Port Sudan. At first the doctors were a bit scared because they thought all the passengers who had taken trips ashore were infected with the mosquito fly. It was singular that all the 10 passengers who were taken ill should have been members of the party that made trips in the interior."

"The doctors were so puzzled that we took aboard a bacteriologist in Egypt, but he could not confirm the diagnosis of the ship's doctors."

Miss W. H. Comstock of Brockville, Canada, who has just recovered from an acute attack of malaria, said: "I am one of the party of 45 who went to Victoria Falls. I rejoined the boat at Durban and felt quite all right. We had been sailing along about another week and had just left Mombasa when I was taken ill. The only thing I can attribute it to is that I was stung by a mosquito at the falls."

POSTAGE STAMPS DON'T STICK Postmaster-General Takes Up Pica for More or Better Glue.

WASHINGTON, April 25.—Postmaster-General Brown is conferring with officials of the Bureau of Engraving and Printing to determine if there is need of more or better mucilage on postage stamps.

Many complaints have reached the Postoffice Department that the stamps do not carry enough glue and that they come off or are lost in transit with the result that the letters are returned to the sender.

STILL FOUND IN VACANT HOUSE

After finding a whisky vat in a garage in the rear of 2728 Semple avenue Tuesday, police returned yesterday and searched the vacant house in front, finding a whisky still, mash and alcohol. Camelo Presina, 2718 Semple street, Italian Peasant, was arrested in the first raid.

Two whisky stills and 4100 gallons of mash were seized in a house at 3861 Market street. Under a trapdoor in the one-story garage behind 5124 Easton avenue, police and Federal prohibition agents yesterday found 14 quarts of gin, two quarts of whisky and six gallons of alcohol. They ordered John Cusumano, tenant of the property, to appear at the Federal Building.

Heavy Loss of Livestock in Wyoming Blizzard Feared.

CHEYENNE, Wyo., April 25.—Loss of life and damage to livestock and other property was feared today due to the blizzard which had isolated this city for nearly 24 hours and impaired transportation. Telegraph and telephone wires were down in every direction from Cheyenne. Communication, even by radio, was cut off last night when the power was turned off to prevent casualties from contact with broken live wires.

Train service, except on local short lines, was at a standstill and all highways were blocked. Even motor travel in the downtown streets here was almost impossible. Many interstate buses due here yesterday were not accounted for, and motor cars were stalled on the highways.

Men fought their way to Cheyenne through huge snowdrifts to obtain clothing and food for their wives and children stranded in automobiles near the city.

7 KILLED, MANY HURT BY TORNADO AT SLOCUM, TEXAS

Town Near Palestine Is Razed by Storm—Two Other Villages Suffer Heavy Damage.

By the Associated Press.

PALESTINE, Tex., April 25.—Two tornadoes struck three East Texas hamlets yesterday, killing seven persons, injuring at least 21 and causing property damage estimated at \$250,000.

The most severe storms swept down a path three miles wide, twisted the town of Slocum, 15 miles east of here, into a mass of ruins and took the seven lives, then dipped again four miles to the east and wiped out Benson Springs without injury to any of its inhabitants. Another twister of less intensity hit the Jones community near Center, Tex., close to the Louisiana border, leaving 75 homeless. One woman was injured there.

The dead at Slocum: P. E. McDaniels, 50 years old; Mrs. P. E. McDaniels, 50; Mrs. Ben Kirkwood, 30, and her two sons, 4 and 7; Mrs. Edna Gatlin, 30, and Claude Melver, 9.

The injured, several of whom are expected to die, are being cared for in hospitals here. The Red Cross and relief committees from nearby towns furnished shelter and food for the homeless.

Two of those killed at Slocum, a farming community of 300 population, were school children. Approximately 150 children were on the school playgrounds during the noon recess, when suddenly the tornado appeared. The children rushed to the school house, but the storm destroyed it just as they entered. Several children were injured.

Nebraska Swept by Tornadoes, Snow, Hail and Sleet.

By the Associated Press.

OMAHA, Neb., April 25.—Tornadoes, rain, snow, hail and sleet swept over Nebraska yesterday, causing heavy property damage and injuring at least two persons.

While two tornadoes struck in Eastern Nebraska, the western section of the State was being swept by snow and rain. The heavy snow was driven by a 50-mile an hour gale.

A tornado cut a path 14 miles long through the farming community between Ulysses and David City, causing heavy property damage. Hesse Howe, a farmer, was injured when struck by flying debris. The home of Henry Bock, State Representative of Butler County, was destroyed as were all buildings on his farm.

STOWAWAY WITH BYRD EXPEDITION FETED

William Gavronski, 18, Praised
Commander at New York
Dinner in His Honor.

Special to the Post-Dispatch.

NEW YORK, April 23.—William Gavronski, the youthful stowaway of the Byrd Antarctic expedition, was feted last night at a dinner at the Polish National Home, at which several other members of the expedition who returned recently to the United States, were present.

Before the dinner, Gavronski and Lieut. Harry Adams, second in command on the bark City of New

York, part of whose personnel recently returned to this country for the summer, went on the air over Station WOR.

In a talk of a few minutes over the radio, Gavronski, who is 18 years old, told of his efforts to stow away on the City of New York when it was in the harbor here last August. He recounted how he jumped into the Hudson and swam to the ship only to be discovered and put ashore. Then he told how he went down to Norfolk and eventually won a berth on Byrd's supply ship, the Eleanor Bolling, by his persistence.

He referred to his experience at the ice barrier in the Antarctic with the expedition and extended thanks over the air to his fellow-students at the Textile High School who had sent letters to him at Little America, the Byrd base. "I'm looking forward to my return in the fall to my commander, Richard E. Byrd. There is a fine spirit among the men there," he

said. "It is one for all and all for Commander Byrd."

Lieut. Adams, in his talk, stressed the value of the scientific findings that the expedition was likely to produce and offered high praise to Commander Byrd's qualities as a leader.

The host, at the dinner was Rudolph Gavronski, the stowaway's father, and the toastmaster was Austin Clark, assistant principal of the Textile High School. The youngster's pluck was lauded by the speakers, who included John Jacobson, sailmaker, and Sydney Greason, chief steward of the expedition crew, who returned from Antarctica with other members of the expedition.

Get our list of surplus stock "close outs"—prior inventory genuine bargains. Some are cut fifty per cent. The balance of April, and we are open evenings, will be a real radio bargain feast at Kieselhorst Company, 1007 Olive St.

RIVER FRONT DRIVE FROM CARONDELET TO BADEN IS URGED

Circuit Judge Rutledge Suggests It as a Substitute for the Franklin-Clark Improvement.

Improvements estimated to cost \$25,000,000 in addition to construction of a drive along the river front, were outlined by nine South St. Louis business men yesterday at Hotel Statler at the second of a series of meetings being conducted by the Community Affairs Committee of the Chamber of Commerce, anticipating a new bond issue.

Circuit Judge Charles W. Rutledge, former president of the Tower Grove Heights Improvement Association and chairman of the Memorial Plaza Committee, questioned whether voters would approve a river front improvement from Franklin to Clark avenues, as outlined by the City Plan Commission. He said that he thought the construction of a 19-mile drive, 150 or more feet wide, from Baden to Carondelet, would interest persons in all parts of the city.

Harbors and Parks Proposed.
Such a drive would connect with Kingshighway at either end and with other boulevards, and would revivify the river front, attracting hotels, restaurants and theaters. He suggested that parks at intervals and small harbors for pleasure craft be included in the program.

Judge Rutledge placed no estimate on the cost of such a project, but Mayor Miller judged the cost roughly at \$60,000,000. Copies of recommendations for improvements will be filed at City Hall and at the completion of the committee's meetings, will be summarized and a statement on legal and financial limitations prepared, Mayor Miller said.

Equipment of 110 public school yards for use as summer playgrounds, was advocated by Dr. W. D. Aufderheide of the South Side Kiwanis Club. He declared that present parks and playgrounds could be put to better use by improvement and asked that additional property be acquired.

Purchase of 25,000 acres for parks in St. Louis County was suggested by Dr. Emil Burst, who cited instances of acquisition of large tracts by Eastern cities.

Would Eliminate Grade Crossings.
Elimination of grade crossings along the Oak Hill branch of the Missouri Pacific Lines and the Frisco Railroad as a safety measure and to speed traffic, was declared necessary by Frank K. Harris of the South Broadway Business Association.

Other speakers, who discussed additional sewers, street widening and miscellaneous improvements, were: C. H. Brandt, president of the Tower Grove Heights Improvement Association; John Morgan, Chippewa-Roadway Business Association; William Stephan, president, Roosevelt School Parents' Association; Harry T. Schollmeyer, president, South Central Improvement Association, and Fred J. Hoffmeister, president, Carondelet Improvement Association.

Civic needs of West St. Louis and St. Louis County will be presented by residents of these communities at a meeting with the committee next Wednesday noon at Hotel Jefferson.

ST. LOUIS TRANSFER CHARGES ARGUED IN SUPREME COURT

Eastern Railroads Ask for Restitution Under the Mandate of High Tribunal.

By the Associated Press.
WASHINGTON, April 25.—The controversy between the Eastern and Western railroads over the payment of transfer charges across the Mississippi River at St. Louis on west-bound freight again was before the Supreme Court yesterday. This time the Baltimore & Ohio and other East Side lines were complaining that the statutory three-judge court had refused to order restored to them money paid under an order of the Interstate Commerce Commission which was set aside by the Supreme Court.

The statutory court followed the mandate of the Supreme Court and set aside the commission's order but refused to grant restitution. The east side lines contended that restitution was part of the mandate while west side lines asserted that under no circumstances could they be compelled to restore money paid by east side lines to the Terminal Association, and further denied that the statutory court had the jurisdiction, insisting that the east side lines should have started new proceedings in the regular District Court.

Questions from the bench indicated a number of the justices took the view of the east side lines, that restitution was required under the Supreme Court mandate, and should have been considered by the statutory court.

Caulfield Approves Democrat.
By the Associated Press.

KANSAS CITY, Mo., April 25.—The round table of Republican ward club presidents will meet Saturday to condemn the action of Gov. Caulfield in approving the appointment of Ed P. Boyle of Kansas City as chief of detectives here. Boyle is a Democrat. The Governor will speak here Saturday night at the meeting of the Seventh Ward Republican Club.

MEMORIAL TO GEN. GOETHALS

WEST POINT, N. Y., April 25.—A collection of 12 oil paintings of the Panama Canal was presented yesterday to the United States Military Academy as a memorial to the late Gen. George Washington Goethals, who was chief engineer in charge of the construction of the canal.

The paintings, from an anonymous donor, formally were turned over to the academy by Jonas Lie, who executed them. The entire cadet corps assembled in Cullum Memorial Hall to watch the ceremony. Among the guests were the widow of the General, and Col. G. R. Goethals, his son.

A BEAR MARKET IN SCOTLAND

PAIR HURT IN 20-FOOT FALL
Mrs. Lillian King, 21 years old,
suffered fractures of both arms,
and her husband, Robert, suffered
a fractured right arm yesterday
when the railing of a porch at their
home, 3125A Rutger street, gave
way, causing them to fall 20 feet.
They were leaning over the rail-
ing talking to their downstairs
neighbor, Mrs. Theresa Mohler.

**Pitifully
scalded**
—it may be your child tomorrow

IN THE midst of play, a heart-rending cry! A
child's body hideously burned... pitiful hours
of pain. And always—the danger of frightful scars.

Be ready to treat burns instantly.

Unguentine is the antiseptic surgical dressing
8 out of 10 hospitals use for burns, cuts, and bruises.
Soothes pain, checks danger of infection. Clean
healing starts at once. And almost certainly—no
scars remain.

Your own physician would recommend it. Buy
Unguentine today. Keep extra tubes in the accident
danger zones: kitchen, office, shop or automobile.
At your druggist's—50¢. Send for free household
manual, "What To Do," by M. W. Stofer, M. D.
The Norwich Pharmacal Co., Norwich, N. Y.

New—Unguentine Soap, too. Bland and sooth-
ing, it rapidly clears up the blenched com-
plexion—particularly when burns, cuts or
bruises have left the skin irritated and sensitive.

"Last Christmas my 3-year-old son
climbed up to smell a pan of hot soup
on the stove. The chair slipped and
down he came, scalding soup and all...
I applied Unguentine freely... The
doctor said, 'You couldn't have done
better.' No scars were left at all."

"The boys had lit a bonfire, when
suddenly Sidney, the youngest, fell.
A passerby rolled him in his overcoat,
saving his life. His side was horribly
burned. We used Unguentine freely
... now there is not even a scar."

By the Associated Press.
MEXICO CITY, April 25.—
Fighting between 1000 so-called
religious rebels and the Federal
Army of Gen. Saturnino Cedillo
at Tepetitlan, Jalisco, was thought
to be in progress today after three
days of conflict.
Shouting their battle cry, "Vive
Cristo Rey" ("Long Live Christ
King"), the beleaguered rebel
force was said not only to have re-
pulsed Federal attacks with hand-
to-hand and bayonet fighting, but
to have inflicted reverses on the
Government troops.
Gen. Cedillo, charged by Gen.
Calles with "extermination" of the
"Cristeros"—as the Government
terms the rebels—was quoted as ex-
pressing confidence his superior
numbers and better equipment
would prevail in the end and that
he would invest the town. He had
5000 soldiers in his command.
Annexes Offer Rejected.
News of the encounter came al-
most simultaneously with advices
of a peace offer on Cedillo's part,
declaring a 20-day truce in the
region affected by the so-called re-
ligious rebellion, during which safe
conduct to homes was guaranteed
those who surrendered and re-
lentless persecution promised the
more tenacious.
Dispatches to La Presna from
Guadalupe offered the most com-
prehensive accounts of the battle
at Tepetitlan.
Gen. Enrique Gorostiza, grad-
uate of Chapultepec Military
Academy, Mexico's West Point, and
former high officer in the army
of President Victoriano Huerta,
was at the head of the rebels.
Bitter Fighting Reported.
La Presna dispatches described
the fighting as most bitter. So
heated had been the conflict at
times that Federals were forced
to withdraw to some distance from
the town to reorganize their forces.
The civilian population of the city
were unable to leave and was
confined principally in one of its
most exposed sections.
The rebel force was said to be
in control of strategic points near
Tepetitlan, which is only 50 miles
east of Guadalajara, second city of
Mexico, and about 35 miles west of
Aranas, Cedillo's headquarters.
Gen. Lasardo Cardenas, Federal
commander in Southern Sonora, in-
formed the Government today that
the rebel army had retreated from
Masaca last night and that Fed-
eral troops were able to enter the
town today without resistance.
Almazan Surprises Rebels by Move
Through Unguarded Pass.
NOGALES, Sonora, April 25.—
Activity marked the rebel camp at
Agua Prieta today as reports
reached the border that Gen. Juan
Andreu Almazan had surprised the
insurgents by moving part of his
Federal troops from Chihuahua
into Sonora through Carretas Pass,
north of Pulpito Pass, which the
rebels were guarding, and was
massing his forces at Fronteras, 25
miles south of Agua Prieta.
Rebels reported they had met
and turned back Federals at Pul-
pito Pass yesterday, and they also
claimed a victory by the rebel Gen-
eral, Fausto Topete, over Federal
cavalry near Masaca, Southern
Sonora.
Federals at San Luis and Son-
oyta, Western Sonora, announced
they expected an attack by rebels
today. Federal bombing planes
dropped explosives here and at
Agua Prieta yesterday. No casu-
alties were reported.

**CULT LEADER KILLED WOMAN,
FORMER SECRETARY SWEARS**
Mrs. Evelyn Rosencrantz, in San
Quentin Prison, Accuses "King"
William Riker.
By the Associated Press.
SAWTELLE, Cal., April 25.—
"King" William E. Riker, head of
a religious cult at Holy City, in the
Santa Cruz Mountains, was ar-
rested here today, following an ac-
cusation by a woman convict at
San Quentin prison that he killed
Mrs. Margaret White in 1927 and
buried her body in quicklime.
Riker denied the charges, and
said he had never known Mrs. White.
The accusation was in an affida-
vite filed in the State Supreme
Court at San Francisco today by
Mrs. Evelyn Rosencrantz, former
secretary to the cult leader, now
serving a term in San Quentin
prison as a habitual criminal.
The affidavit alleged Mrs.
White was choked to death at Cul-
ver City, Cal., in November, 1927,
in a cottage occupied by Riker
and Mrs. Rosencrantz. The body

Think of freezing ice cubes in your present ice-box

Have all the ice cubes, desserts
and salads you want... when
you want them. Make your
present ice-box a Frigidaire

It's an easy matter to convert your present
ice-box into a Frigidaire automatic refrig-
erator. And think what this means. A plentiful
supply of sparkling ice cubes, delicious frozen
desserts, delightfully different salads... all the
benefits of dependable, care-free refrigeration
... for years to come.

And Frigidaire gives your family priceless
health protection. It maintains constant low
temperatures that keep foods fresh and whole-
some... temperatures that you know are safe.

Cold Control... found only on Frigidaire
Besides making your ice-box an automatic re-
frigerator, Frigidaire now gives you positive
control over freezing time and temperatures.
Just turn the lever of the Cold Control to
"colder" and you speed the freezing of ice
cubes, desserts or salads... you have colder
refrigerator temperatures for emergencies... all
this under control.

Let us tell you more about Frigidaire's sim-
plicity and what Frigidaire does. Let us tell
you about the new low prices and General
Motors liberal terms.

And let us give you free, our two new books;
one, the famous Frigidaire book on healthful
refrigeration; the other, the new Frigidaire
Recipe Book containing scores of recipes for
frozen delicacies. Stop in... today.

"Bond Bread not on bargain lists"

JOS. J. GROTE conducts a modern grocery at 3900 Wyoming Street, where he has been located for 20 years. "Fair dealing—prompt service—and good goods" is his motto, and his many satisfied customers will tell you that he always lives up to it.

Some housewives watch for cut price sales. They are frugal. They buy closely. They have a keen sense of values.

But there is one thing these women never have on their bargain lists. It's Bond Bread. And I've learned through years of experience that housewives who are the closest buyers are not interested when you offer them cheap bread.

When you think about it, they are right. Bread is the backbone of the meal in most families.

Out of bread comes the energy for the day's work. It is something you shouldn't fool with. Unless bread is wholesome and fresh and properly baked, it's a waste item altogether.

My customers know that Bond Bread costs a little more than ordinary bread, and that it simply can't be given away or sold for less than it costs.

They stick to it.

It's something to put in your note-book that Bond Bread has won and holds the favor of so many customers.

JOS. J. GROTE
(Signed)

After all—

there is no bread like

Bond Bread

HALF OF DAIRIES IN COUNTY FALL BELOW STANDARD

S. O. Von Achen, State Superintendent, Visits Municipalities to Urge Adoption of Ordinance.

Only about one-half of the dairies in St. Louis County comply with the minimum accepted standards for the production of raw milk, while nine dairies fail to meet the simplest rules for sanitation, S. O. Von Achen, milk specialist of Missouri State Board of Health, declared in a report submitted today to the St. Louis County League of Municipalities, after a recent survey.

Von Achen is visiting St. Louis County municipalities this week, in an effort to influence officials to adopt as a standard measure, a milk ordinance fostered by the Federal Government, and recommended by the State Board of Health, which requires rigid inspection and proper grading according to quality and conditions of all raw milk sold in the districts. Kirkwood is the only county municipality which at this time has such an ordinance.

The survey, made last autumn at the request of the County League, included inspection of 25 dairies in the county.

Twenty dairies, according to Von Achen's report, failed to sterilize property bottles and utensils. Of that number, 17 were not using a disinfectant, and 19 were using an improper method of bottling.

"All of the dairies except one," the report continues, "reported tuberculin tests of all cattle, but not a single dairy employee had been examined physically for diseases which might cause contamination of milk and a widespread epidemic."

"Only two of eight municipalities visited have any regulations concerning dairies and neither of those two make any definite provision for the enforcement of their laws, except by monthly bacterial counts and annual tuberculin tests. A number of towns have no record or information concerning the source of milk sold within city limits."

It is Von Achen's aim to find out the cities and towns in the county to adopt the standard milk ordinance sponsored by the Federal Government, in order to obtain a uniform action in enforcing milk health laws. The ordinance provides for laboratory examination of milk at frequent intervals, physical examinations for employees, and constant inspection of machinery and equipment used in the production and distribution of the milk.

TO MANAGE METERED MAIL

Harry J. Mayer Selected to Head St. Louis Bureau.

Harry J. Mayer, 2924 Russell boulevard, has been selected by users of metered mail service throughout the country to manage the Metered Mailers' Bureau. He will maintain offices in St. Louis and will be in charge of the gathering of data to present to Congress to secure an amendment to the original metered mailing act which would do away with the monthly royalty charge for the use of the system.

Mayer formerly was superintendent of mails in the St. Louis Postoffice and until recently was manager of the postal engineering department of the Postage Meter Co., 612 Locust Street.

BODY OF UNIDENTIFIED MAN IS TAKEN FROM THE RIVER

He was 5 Feet, 8 Inches Tall, Weighed 160 Pounds, and Had Red Mustache.

The body of a man, about 59 years old, was taken from the river, near Jefferson Barracks yesterday. The man was 5 feet 8 inches tall, weighing 160 pounds, and had a red mustache. Clothing included two shirts and two pairs of trousers.

The body, which had been in

the water about five days, is at an undertaking establishment at 7814

South Broadway awaiting identification.

MAYORALTY CAMPAIGN
COST G. O. P. \$39,782

City Committee Reports That Amount Spent, and \$41,684 Collected.

The Republican City Committee collected a fund of \$41,684.72 and spent \$39,782.05 in the recent mayoralty and aldermanic campaign, it is set forth in a report by Treasurer Charles R. Gillespie filed with the Recorder today. All the Republican nominees were elected. The Democratic report has not been filed.

Mayor Miller and Comptroller Nolte were assessed \$1000 each for the fund and the 14 aldermanic nominees \$300 each. The assessments totaled \$6200. The largest separate item of receipts shown is \$2000 from the Park Department Association, an organization of park employees. The next largest is \$1200, in items of \$1000 and \$200, from Director of Public Safety Brod.

It became known recently, as has been told, that the Republican committee was disappointed because Brod's efforts to collect funds did not show better results. He collected more than \$2000. Much of this is listed in the report under the names of individuals giving him money. It is understood that much of his activity was in the Fire Department, which is under his control.

2500 City Employees Contributed.

There were 2500 contributors, the smallest donation being \$1. More than 2500 of these givers are in the employ of the city, including many workers on small salaries. It appears that those city employees who contributed adhered fairly closely to the rule of giving 5 per cent of a month's salary, where the pay is under \$150, and 10 per cent where the pay is larger.

A. J. Steinmeyer is reported as giving \$500 to the fund. This appears to be the donation of the city firemen's union, which made an unsuccessful effort to obtain a pay increase for its men by the initiative in the election.

\$30 a Precinct.

Circuit Clerk Schmoll turned in a \$349 collection from his office and a contribution of \$100. George Neville, cashier of Collector Koeln's office, submitted \$500 collected from the office force. Robert J. Kratky, manager of Mayor Miller's 1925 campaign, gave \$250, and August A. Busch contributed \$200.

For use on election day, the committee gave each of its 24 men members \$100 and each of its 28 women members \$50. It also provided a fund of \$30 for each of the 670 precincts. These expenditures aggregated \$24,500. The committee spent \$1800 for radio time on two stations and \$4413.50 for advertising in five newspapers. The rest of its expenses were for headquarters rent, printing, advertising, stenographers and hall rentals.

EAT YEAST IN MODERN FORM

Eat yeast for your health's sake. It's good for you. It's a marvelous tonic and conditioner. But eat it in a form that you like, such as Yeast Foam Tablets. No water, no starch, no other ingredients—just yeast. Delicious little tablets that are easy to swallow, although most people like them so well that they chew them like candy.

Eat this yeast for constipation, indigestion, skin disorders, "nervous" condition. Only 5 cents a bottle. The little glassine envelope (6 tablets) or 50 cents for the 10-day bottle. At drug stores. Satisfaction guaranteed or money returned. This yeast is standard for research work in leading universities. Northwestern University, Chicago, Ill.

HAVE YOU ANYTHING IN THE HOUSE THAT WILL STOP PAIN, MARY? I FELL AND BRUISED MY SHOULDER. IT HURTS SOMETHING TERRIBLE.

I'LL PUT SOME SLOAN'S LINIMENT ON YOUR SHOULDER AND THE PAIN WILL GO AWAY. I'M GLAD I BOUGHT THAT 35¢ BOTTLE OF SLOAN'S LINIMENT LAST TUESDAY. IT MAKES PAIN GO AWAY QUICK.

BRUISES? Sloan's Liniment KILLS PAIN

Never mind the moths themselves
it's the cloth you must moth-proof

it's the cloth you must moth-proof

This is the new way to look at the problem of moths and moth-damage. Get ahead of the moth-worm and prevent him from eating your clothes! Larvex will do this and set your mind at rest. Moth-balls, cedar chests, tar-bags and insect-killers can't stop moth-worms from eating. You can stop them with Larvex because Larvex really moth-proofs. Larvex is odorless, non-inflammable and guaranteed as advertised in Good Housekeeping Magazine.

SPRAYING LARVEX, for upholstered furniture, coats, suits, etc. One spraying lasts a whole year. \$1 for a pint or, with atomizer which lasts years, \$1.50.

RINSING LARVEX, for such washable woollens as blankets, sweaters, etc. This is in powder form (50¢ a package) and you just dissolve it in water, then soak and dry—that's all!

SPRAYING LARVEX RINSING LARVEX

Both kinds sold by drug and department stores everywhere. The Larvex Corporation, 250 Park Avenue, New York, N. Y.

Fresh from the Sea comes the King of Food Fish

PINK Salmon is highly recommended by all culinary experts, U. S. Government officials and dietetic specialists. Dr. Harvey Wiley calls Salmon the "King of Food Fish" because it is so rich in all the essential food elements yet has a much lower cost per pound than other protein foods.

Delicious PINK Salmon supper and luncheon dishes, salads and sandwiches—baked, cooked, uncooked—can very easily be prepared by anybody. Prize Winning Salmon Recipe Book will be sent free, if you write to Associated Salmon Packers, 2502 Smith Tower, SEATTLE, Washington.

PINK SALMON SALAD LOAF

Drain 1 can PINK Salmon, add 4 tablespoons vinegar, 1 teaspoon salt, dash of paprika, and rub smooth with wooden spoon. Chop fine 2 hard boiled eggs, 9 large olives, 1 sweet pickle, add 1½ cups cooked salad dressing, 2 tablespoons chili sauce. Soak 2 tablespoons plain gelatin in ¼ cup milk for 10 minutes. Heat another ¼ cup milk to boiling point, add gelatin and stir until dissolved. Mix this with other ingredients and combine with the salmon. Put into individual molds wet in cold water. Arrange on lettuce leaves, garnish with pickles and top with salad dressing thinned with whipping cream.

RADIO Every Thursday morning Dr. Royal S. Copeland lectures on Health and Diet over Station KWK, St. Louis.

CALLS WITNESSES IN BOSTON HERALD PURCHASE INQUIRY

U. S. Trade Board Includes Among Them Officers of International Paper Co., the Buyer.

WASHINGTON, April 25.—The Federal Trade Commission made public today the names of four witnesses subpoenaed to testify at a hearing next Tuesday in connection with the reported purchase of two Boston newspapers, the Herald and the Traveler, by the International Paper Co. The witnesses subpoenaed are:

Robert Lincoln O'Brien, former president of the Boston Publishing Co., which publishes the two newspapers and former editor of the Boston Herald.

W. N. Hulbert, vice president of the International Paper & Power Co. of Boston.

John R. Macomber, director of the International Paper & Power Co.

James Garfield, secretary of the Boston Publishing Co.

Begun at Norris' Request.

The proposed investigation into the purported purchase of the two newspapers by the paper company was instituted after Senator Norris (Rep., Nebraska), had requested such an inquiry. Norris recently sent a letter to the commission asking for the investigation and after considering his request the commission today decided to hold the inquiry.

Chairman McCallum of the commission said the commission also had received a letter from Norris asking for an investigation into the alleged purchase of the control of several newspapers in Alabama by public power utility interests. The chairman added the commission had taken the Nebraska Senator's request in regard to the Alabama situation under consideration but declined to say whether an inquiry would be instituted.

Norris said in his letter to the commission he had referred to his speech in the Senate in which he said he had heard that power interests were dissatisfied with the attitude of the newspapers in Alabama, and were taking steps to establish another paper. He said he understood that since then, the paper had been started.

He urged an investigation, he said, in view of the acquisition of control of the Herald and the Traveler by the International Paper and Power Co., and charges that the power companies were seeking control of newspapers in New England.

Norris declined to make the letter public.

Publishers Table Protest Against Newspaper Buying by Paper Co.
By the Associated Press.

NEW YORK, April 25.—After a long discussion during which some delegates declared the matter was one for the Federal Government to investigate, the American Newspaper Publishers' Association in convention today tabled without a vote a resolution opposing the purchase by the International Paper Co. of stock in newspapers.

The resolution had been offered by Col. Robert Ewing of the New Orleans States, and before it was tabled had been amended to include condemnation of entrance into the newspaper field of interests other than strictly journalistic enterprises. Despite the failure of the resolution, Col. Ewing said he was well pleased with the action of the convention in bringing to the attention of publishers and the public the entrance or projected entrance of paper companies, banks, public utility companies and similar enterprises into the newspaper field.

In attacking the International Paper Co., Col. Ewing said, "any

commercial concern cannot be fair as both a seller and a purchaser." Ewing and other publishers pointed out instances of where the International either had already acquired or had started negotiations for more newspapers.

The convention yesterday extended a vote of confidence to S. E. Thomson of the Chicago Journal and its Paper Committee, of which Thomson is chairman. A resolution approving "all the actions and activities of the Paper Committee" was adopted after a full afternoon of discussion of the paper situation, the International Paper Co. and the Paper Committee.

Earlier in the day Thomson submitted his report in which he said he would make a personal statement to the convention regarding criticism that his committee was influenced by the fact that the International Paper owns securities of a newspaper published by the chairman.

Alleged large investments in newspaper properties by the International Paper Co. led to criticism of that company some time ago. Recently the company announced a new scale of prices and a new form of contract and publishers have shown great concern over the

FELL IN LOVE WITH HER WHITE HANDS

He fell in love with her soft, pretty, white hands. Her beautiful fingers twined about his heart—for though her daily work was trying to her hands, she had discovered the secret that cream of Ice-Mint holds in keeping hands and skin soft, smooth and white. Just a little touch of Ice-Mint before retiring at night to both hands and face and on the morrow her skin is beautiful to behold.

Don't let your skin lose its beauty or charm through lack of proper care. Women are constantly injured by their hands and skin. Lovely white hands are the real mark of refinement. Some one will admire yours, too, if you give them a daily touch of Ice-Mint. Do not neglect them. Ice-Mint is the most modern, best and clearest way of caring for your hands and skin. Even one application will delight you. Try Ice-Mint—the largest selling beauty cream on the market today. Sold in two popular sizes, 50¢ and \$1.00 a jar.

DR. VICTOR PAUCHET, of Paris, eminent surgeon of the Hospital of St. Michel, is the author of "La Constipation" and "Le Chemin du Bonheur" (The Road to Health), the latter soon to be published here in English. He says: "Unfortunately constipation is generally treated with medications which irritate the intestine, poison the organism. Yeast, however, is a safe remedy. It stimulates the intestine and can be eaten without harm."

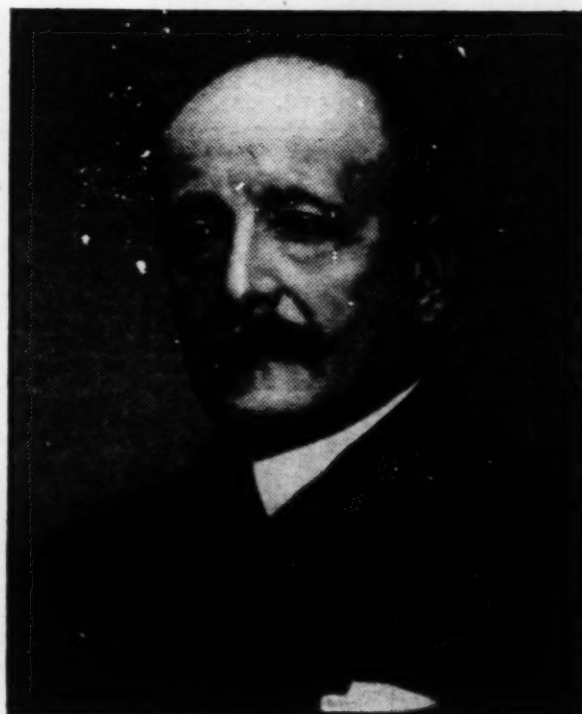

"It is unfortunate that constipation is often treated with irritating medications"

High French Medical Authorities call Yeast safe, convenient corrective

IN warning against harsh cathartics—in urging yeast as a "safe" corrective for constipation—Dr. Pauchet, the noted French authority on the intestinal tract, summarizes the view of leading medical men on both sides of the Atlantic. In a recent survey throughout the United States, half the doctors reporting said they prescribed fresh yeast for constipation and related ills.

Dr. Pauchet's distinguished colleagues, who here stress the "disinfecting" or purifying power of yeast, realize how closely health depends on a clean and active digestive and intestinal tract.

Fleischmann's Yeast—a fresh food—unlike dried or "killed" yeast contains millions of living, active yeast plants. As these pass through your intestines daily they combat harmful poisons, purify your whole system. Your complexion

clears, indigestion and headaches when constipation disappears. Start now! Eat 3 cakes of Fleischmann's Yeast daily, one cake before each meal or between meals, plain or dissolved in water either cold or hot (not hotter than you can drink). For full benefit you must eat it regularly and over a sufficient period. At all grocers and many leading cafeterias, lunch counters, and soda fountains. Buy two or three days' supply at a time and keep in any cool, dry place.

(LEFT)
DR. GASTON LYON, outstanding figure in French medical circles and medical author of distinction, is Laureate of the Academy of Medicine and former chief of the Medical Clinic of the Faculty of Paris. "Yeast," he says, "is especially used in disorders of the skin, but should not be limited to skin troubles. It modifies nutrition, reduces intestinal fermentation and regulates the functioning of the intestine. Its use is unattended with any inconvenience."

Famous Barr Co.

OPERATED BY THE MAY DEPT. STORES CO.

WOMAN TO BE TRIED ON POISONING CHARGE

Nora Edwards of Poplar Bluff Accused of Attempting to Kill Husband.

Special to the Post-Dispatch.

POPLAR BLUFF, Mo., April 25.—Mrs. Nora Edwards, convicted on a burglary charge and sentenced to two years imprisonment last week, will be tried on a charge of attempting to murder her third husband, J. W. Edwards, a painter, O. A. Tedrick, prosecuting attorney, announced after he had completed an investigation of the case.

Mrs. Edwards has been under bond following her arrest four months ago. Her husband charges she gave him small doses of poison in an effort to kill him, but that he discovered her plan in time to save his own life.

Tedrick indicated he would present evidence to show that the life of another Poplar Bluff man was threatened. The prosecutor said he did not know whether the County Court could be persuaded to appropriate funds for disinterment of the body of Edwards' 13-year-old son who died a few weeks before his illness.

TWO ST. LOUIS BOXERS REMAIN IN HUNT FOR JUNIOR A. A. U. HONORS

SCHWAKE TO BOX HOLY CROSS ACE IN FINAL BOUT OF HEAVY GROUP

By a Special Correspondent of the Post-Dispatch.

CHICAGO, April 25.—The two extremes of the team which St. Louis sent here to compete in the National A. A. U. junior boxing championships will step into the ring at the Chicago Stadium tonight in an attempt to win the crowns of their respective divisions.

One of the two remaining St. Louisans is John Schwake, who last night qualified for the heavyweight final by winning a two-round technical knockout over Jay Chambers of Kalamazoo, Mich. The other is Woodrow Williams, the best hitter of the flyweights entered, who is one of four men remaining in his division.

Schwake will enter the ring a pronounced under-dog, as his opponent will be Joe Lillich, of Holy Cross College, known as one of the best amateurs in the East. Schwake, although winning by a technical knockout last night, was not impressive in victory. He wasted a round in feeling out Chambers, and would not take the aggressive until the second round began. Chambers wilted under Schwake's attack to the body, and went to the mat under a pounding under the heart. He was not counted out, Referee Behr consulting him and then stopping the fight.

Williams Has Good Chance.

Williams stands a much better chance of taking the title in his class. He turned in a good performance to win through his first round bout Tuesday evening, and is one of the two best men remaining in the flyweight competition.

The other flyweights are Tony Sciolino of Batavia, N. Y.; Paris Apice of Boston, and Madero Villareal of Tulsa. Villareal, a Western A. A. U. entrant, is the other real threat for the title.

After two nights of battles, some of them sensational and all bitterly contested, 32 amateur boxers remained to meet in the semifinals and final bouts of the title tournament.

Contestants in the four lighter classes Tuesday night set a mark of eight knockouts in 21 bouts, but huskies in the welter, middle, weight, light-heavy, and heavyweight divisions, last night gave about 7000 fans even more action for their money. Six knockouts, some of them in matches where either boy might have been the victor, were scored in 11 engagements.

Tulsa Bantam Remains.

There was hardly an idle moment in any of the bouts, indicating that action tonight will surpass even that of the last two nights. The bantams remaining in the running for titles were Glenn Nute, Tulsa, of the Western A. A. U. delegation; Mose Butch, Pittsburg; Frank Garcia, Boston, and Frankie Wallace of Cleveland. Clay Bond of Tulsa remains in the feather division.

The four survivors in the lightweight division were Wesley Ramsey, Grand Rapids; Arnold Magdiel, Salt Lake City; Tommy Rawson, Boston, and Dan McCabe of Pittsburg.

Morey Bowman was favored to take the welterweight title back to Grand Rapids, but was in line for trouble with George Bretch, Pittsburg; Ivan Smith, Salt Lake City, and Eddie Latko, Cleveland slugger.

Karnoff Hansen of Chicago, an oversized middleweight, appeared to have an edge over the rest of the field in his division, which included Johnny Lee, Chicago; Ray Tremble, Chicago, and Al Keegan, also of Chicago. Alex Regdon, Pittsburg; Victor Booker, Chicago; Harry Allen, Boston, and Ed Willis, Chicago, were to battle it out for the 175-pound title.

BRITISH GOLF TITLE IS GLENNA'S GOAL

By the Associated Press.

PROVIDENCE, R. I., April 25.—Miss Glenna Collett, national women's golf champion, is undertaking her fourth invasion of Great Britain in five years in quest of the British title.

The British championship is one of the few major golf titles open to women which has not been held by Miss Collett. The British golf strike deprived her of a chance to play for the title in 1925. On two other occasions Miss Collett failed to survive the early rounds of the British women's title play.

The tournament is to be played at St. Andrews, Scotland, beginning May 12. Miss Collett has always considered 13 her lucky number and feels that the date set for the opening is a good omen.

IOWA TANK STAR TAKES 14 RACES

By the Associated Press.

IOWA CITY, April 25.—Boyd N. Liddle of Davenport, sophomore swimmer at the University of Iowa, splashes a mean crawl.

Amateur Baseball

The Oasis Cubs defeated the Baden A. C. 6 to 1, due principally to the brilliant pitching of Espenhorst, who allowed the losers only one hit. For games with the winners in the 16-18-year-old class, call Francis Magnin, CABANY 5565W, at 5334 Minerva avenue.

COLLEGE CREWS ALL STROKED BY HEAVYWEIGHTS

By the Associated Press.

NEW YORK, April 25.—A dozen young heavyweights and light heavies, all of them battling with a 12-foot oar stand out above the others now that the college rowing season is in full swing from the Oakland estuary to the Severn.

Comprising the country's list of oarsmen picked for the all-American post of varsity stroke, these huskies range in size from the comparatively modest 162 pounds of Ed Anderson of Washington and the 165 of Woodruff Tappen of Yale to the 183-pound bulk of California's Pete Donlon.

Fiercy youth has come on fast to fill the many gaps left in the experienced stroking talent with the passing of last season. Three of the coaches have elected to entrust the job to sophomores of little experience but considerable promise.

Harvard, Penn and Massachusetts Tech, the current big noise of the season because of its victory over Navy, all have hit this solution of their stroke-air problems.

Harvard Has Young Star.

The youngest of all is the Harvard stroke, Stanley Swaim of Needham, Mass., who is only 19 but is built for speed. Too much beef made Harvard sluggish last season and largely accounted for its ten-length beating at the hands of Yale, but Coach Ed Brown has hopes this year that the Leon Soph whose 165 pounds is distributed over a 6 foot 1 inch frame, will supply the vital spark.

Bill Otis of M. I. T., who opened his varsity stroking career by swamping the Navy, is only a year older and four pounds heavier, but Penn's sophomore sensation, whose surname is the aptly fitting one of Thrasher, is a stroke of another stamp, with his 180 pounds and 6 feet 1 1/2 inches, this well-proportioned giant, known to his mates as "Tiny" is one of the biggest pace-setters in college ranks this year.

Washington, Cornell and Syracuse appear to have found the answer to their stroke-air prayers not among the erstwhile freshmen, but in the ranks of last year's junior varsity oarsmen.

Wrestler on Squad.

Jim Ten Eyck at Syracuse has Bill Freeman, a 6 foot 3 inch mammoth who stroked the "Jayvee" in 1928 and is a heavyweight wrestler in the off-season, doing the pace-setting.

H. B. Shoemaker and George Behrman, former junior varsity men who weigh around 170 pounds, are being tried by Jim Wray at Cornell. Anderson, who stroked the Washington junior in 1928, beat out his captain for the stroke assignment for the losing race with California recently.

At the Naval Academy the stroke argument is by no means settled. In view of the reverse suffered by the McClure stroked boat on Saturday, old Dick Glendon is considering switching back to Strong, who set the pace on the Hudson last year.

Columbia, which will carry the hopes of young Rich Glendon against the Middies here Saturday, is sure to be stroked by Al MacBain, a tall and heavy veteran. Nothing but a tidal wave can dislodge the fast-rowing Tappen from the stern thwart at Yale or the great Donlon from his place among California's world champions.

A little more doubt surrounds the situation at the other two rowing colleges, although Princeton appears well satisfied with Clingerman as stroke for the race with M. I. T. Saturday, and Mike Murphy at Wisconsin has a liking for the work of a husky youngster named Oberdick.

M. I. T. CREW CAPTAIN ROWS IN SECOND SHELL

By the Associated Press.

CAMBRIDGE, Mass., April 25.—Phil Holt of Denver, Colo., was the only varsity oarsman from last year's Massachusetts Institute of Technology crew who succeeded in making the first boat during the early season training this year.

The result is that the first crew has been rowing without a single senior seated in the shell, excepting the coxswain. Capt. Edward Tittman of El Paso, Tex., has been forced to row in the second crew. Two other veterans, both seniors, were similarly forced out of the varsity shell by the competition they faced.

The crew that has been pointing for the first Eastern inter-collegiate crew race of the season—that between Tech and the Navy April 29 on the Severn—has been made up of three juniors and five sophomores.

Coxswain Bill Haines is enthusiastic over the material he has had to work this season, declaring it the most formidable since his coming to Tech.

University City Team Is Favored to Win in Annual County School Track Meet

By HENRY L. FREUND.

The annual St. Louis County high school track meet will be held Saturday afternoon at Francis Field, Washington University, starting at 1:30 o'clock. The large number of entries necessitates the running of preliminaries in all the dash events. These preliminaries will be held this afternoon at Francis Field, beginning at 4 o'clock.

University City High is favored to win the meet, with St. Charles next. Maplewood will also be a strong contender, being especially powerful in the junior events. Kirkwood is represented by a large squad. Clayton, Normandy, Ritenour and Wellston are the other schools entered.

An added incentive for the contestants will be the awarding of gold, silver and bronze medals to those finishing first, second and third in each event. This is the first time in over six years that medals have been awarded.

University City is favored to win in the junior division and finish among the leaders in the senior races. In early season meets U. City has brushed aside all opposition, winning every dash event it has entered. Among its victims are Kirkwood, Clayton and St. Charles.

In the senior dash events Taft, F. Austin and L. Austin are outstanding. Joplin and Gruner have been showing up well in the pole vault and McMurray and Walmsmith in the discus. Walmsmith also has been participating in the high jump and hurdles. His times indicate he is one of the fastest hurdlers in the country. Johnson, Lionberger, Dorfmont and Atkinson have been the stars of the junior division.

Meyer Is St. Charles Ace.

St. Charles' senior track team lost to U. City by a one-point margin, 55-54. The hopes of the Missouri River school will be pinned chiefly on Meyer, who is one of the favorites in the 100, 220 and 440 yard dashes. Meyer was a star last season, when St. Charles won the county championship. Weppe-rich and Hug also are reliable dash men. Kruef is an excellent hurdler and will give Walmsmith and McMurray of U. City some stiff competition. St. Charles is weak in the junior division, as Bloebaum, who has been the outstanding St. Charles athlete in practice meets, is ineligible for the county meet, being above the age limit. St. Charles has defeated Normandy and Maplewood in dual meets.

Maplewood has several outstanding stars. Max Blanchard is

MADISON KENNEL CLUB WILL OPEN SEASON, MAY 2

The dogs are being warmed up at the Madison Kennel Club race track on United States Highway No. 49 in preparation for the opening of racing season May 2. Schooling races are being held daily.

Efforts to make racing more comfortable for the spectators has resulted in the extension of the auto parking space entirely around the boarded inclosure of the track. A new stand of bleachers has been constructed at the eastern end of the track flanking the runway from the paddock. The kennels have been moved up near the paddock in full view of the track. A concrete apron, eliminating the dust and occasional mud of previous years has been built in front of the grandstand.

Track officials have announced that members of the Western championship Madison Kennel Club soccer team will serve as groomers for the dogs—taking them to the track for each race. Members of the team who will be at the track include John (Dinty) Moore, Edward (Bud) Grennon, Joe Hand, Lee Hennessey, Vincent Sullivan, John Worden and James Egan.

There are more than 500 dogs at the different kennels. Many of them raced at Miami and other tracks over the country. Some have not run since the Madison Kennel Club closed last year.

Two of the quarter mile trials were run in 26 seconds yesterday. Jimmy McQuillan led Happy Woon and Miller Roy in the tenth race, while Mischief won over Mickey Concern and Definite Demand in the fifth. In the third race Spaulding Brutus, although knocked down early in the race, came through to a good finish. Pat Flynn, in the same race, ran wide at the turn, but showed his excellent condition by passing the seven dogs to win.

Wellston has a track team for the first time in years and with Ritenour is expected to run in the rear of the other schools.

BABE RUTH SAYS:

Gehrig and Lazzeri Have Chance to Break His Home Run Record—Athletics Dangerous Despite Loss of Al Simmons From Outfield.

By Babe Ruth.

BOSTON, April 25.—All spring I've had letters from fans over the country asking me about Gehrig.

"Do you think Lou will beat you in hitting home runs this year?" one fan writes. "Why don't you tell us about him?"

The reason I haven't had much to say about Gehrig this year is that Lou can usually speak for himself. He'll be speaking out there on that ball field all season.

Now about the league in general. With bad weather all over the circuit and games called off here and there it's hard to get any line on the other clubs. Thus far the thing that has impressed me most is the fact that the St. Louis Browns' pitchers seem to have started in right where they left off last fall. Crowder and Gray each won their first games easily—and if Dan Howley can get the pitching he got last year, plus the punch, the Browns will be as tough an outfit as you'll find anywhere.

The Athletics are powerful, despite the loss of Al Simmons and a makeshift arrangement on their infield. The thing I like about them is as a ball club is their punch. They can hammer that ball. And they ought to have the pitching to back up their wallop a little later on. You know you can't tell much about pitching this early in the season. Seventy-five per cent of the games this month and in early May are apt to be decided by hitting. Cold weather always slows up the pitchers, and you can't expect the fellows to be up to real form for at least another month.

I was interested in the showing this young Link made for Washington in his first start. If that kid comes through with a good year, Walter Johnson will have a tough outfit.

The Keeper—the largest dog ever raced at the East Side track and weighing 82 pounds—proved a surprise when he ran third in a fast field. In previous years, big dogs have not been very successful.

One I named was Lou Gehrig, the other was Tony Lazzeri. That still goes. And Lou, because he's bigger and heavier and stronger and because he's a left hand hitter who pulls his shots to right field, has a better chance than Tony.

I've got a sneaking hunch that the man who will make fans forget Babe Ruth will be either Lou Gehrig or Tony Lazzeri. I hope I'm right. When I get out of the game there's nothing I'd rather see.

BRITISH TENNIS TEAM TO MEET U. S. PLAYERS

By the Associated Press.

NEWPORT, R. I., April 25.—Newport is to be the scene this summer of the biennial tennis matches between the Cambridge team and Harvard-Oxford racquet-players, according to James S. Cushman, chairman of the tennis committee of the Newport Casino.

Acting for the Board of Governors, he offered the use of the Newport courts to the tennis teams. The date of the tournament has not yet been fixed.

These British and American university tennis teams played matches abroad in 1927. At that time a British victory gave Cambridge-Oxford team possession of the trophy offered by British S. Prentice.

GOOD GOLF CADDIES GIEN SCHOLARSHIPS

WEIRTOWN, W. Va., April 25.—Efficient and reliable golf caddies, who have the ambition to become college graduates, will be given a higher education by the Weir Steel Co.

As a memorial to his brother, M. Weir, the steel magnate established five four-year scholarships at the University of Pittsburgh.

Only golf caddies are eligible. Each of the five, to be selected by officials of the Western Pennsylvania Golf Association will be given \$2400. This sum will provide four years' tuition and \$1000 for incidentals.

Each of the five, to be selected by officials of the Western Pennsylvania Golf Association will be given \$2400. This sum will provide four years' tuition and \$1000 for incidentals.

"I'M NOT GOING TO CADDY IN CUP PLAY," MEHLHORN DECLARES

SOUTHAMPTON, England, April 25.—Glenna Collett, arriving yesterday on the Aquitania to try for the British women's golf championship, said she did not expect to win it, but has high hopes for the success of the invading American team of professionals.

"I think Miss Joyce Wethered, whom I consider your best player, will win the championship," said the American champion, "but as for our men in the Ryder Cup matches at Leeds, I think Walter Hagen and his boys will keep the trophy."

The Aquitania also brought George von Elm and Bill Mehlhorn.

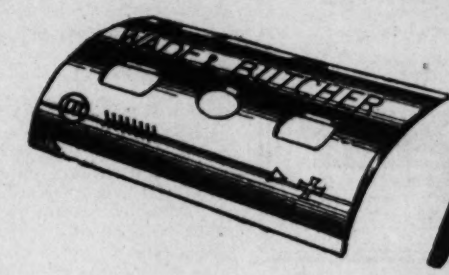

Asked innocently whether he was going to compete in the Ryder Cup matches, "Wild Bill," who was left off the team, replied, "No, I'm not going to caddy."

Earl Sande Will Be Permitted to Ride at Fairmount

EARL SANDE, as an owner, will be permitted to ride his horses at the spring meeting at the Fairmount Jockey Club oval at Collinsville, C. Bruce Head, general manager, and director of the Illinois Turf Association, said yesterday.

An owner-jockey is allowed to ride his own horses at tracks under rules of the Illinois association and the Kentucky Racing Commission, Head said. An owner is not permitted to ride on the New York Jockey Club tracks.

Sande has nominated two horses, Hermitage and Nearby, in the Fairmount Derby on June 1. He won the event in 1927 on Haste and was second in 1928 on Osmand.

lows discuss the art of heavy hitting.

Stillman was the unchallenged king of the district middleweight division. Reed was a newcomer, an unheralded bridge worker from Baden. He had engaged in only three or four fights.

Yet Reed rushed from his corner at the sound of each bell, met Stillman in the latter's own corner, and knocked the favorite down four times for long counts. It was Stillman's first defeat in a local ring. Reed and Stillman were again matched but before the bout was held Reed injured himself and the bout was called off.

URBANA, Ill., April 25.—Forrest "Frosty" Peters, quarterback on the University of Illinois football team, has withdrawn from school. His reason and destination were not revealed.

Nine Oklahoma Errors Enable Tigers to Win

Special to the Post-Dispatch.

NORMAN, Ok., April 25.—Missouri rested at the top of the Big Six conference baseball ladder today after trouncing Oklahoma, 14 to 12, in the first of a two-game series yesterday afternoon.

After the dust of a blinding Oklahoma sandstorm had settled and the hits were counted, Oklahoma had registered 15 to 14 for Missouri. Five of Sooner blows were for the complete circuit. These extra base knocks, however, could not offset the nine Sooner errors in the field, and Oklahoma found little consolation in any phase of the hectic affair.

Missouri came from behind to win in the eighth after the Sooner had gained a one-run margin by counting five runs in the last of the seventh. Mehre singled, went to second on Asbury's single to left, and both scored when Williams' single to left got away from Kitchell, Herring fanned, and Williams scored and McDowell was safe at first on a squeeze play. R. Bridges hit into a double play to end the inning.

Although the Sooners advanced a runner to third in the ninth inning, Eiselman fanned the last two batters to end the menace.

HAMILTON AVENUE WOMAN TELLS HOW SHE CONQUERED RHEUMATISM

Suffered With Severe Rheumatic Neuritis—Arms Were Sore—Stiff—Lauds Weldon Tablets

"It is a real pleasure to give my experience with Weldon tablets and

MRS. H. H. SCHUMACHER. tell the world what they have done for me," said Mrs. H. H. Schumacher, who lives at 5223 Hamilton Ave. Mrs. Schumacher continued: "I suffered with a most severe form of rheumatic neuritis in my arms and shoulders. I had taken treatment from physicians and nothing seemed to reach my case. I suffered so severely that I was unable to do my own work, could not get my hand to my head, nor bend to lace my shoes. In the morning my legs were sore and stiff, and it was al-

most impossible for me to go up or down stairs. After sitting any length of time the pain and stiffness in my knees made it almost impossible to get up, in fact I would have to pull myself up by holding on to the arms of the chair and then stand for some time before I could walk away.

"Reading how Weldon tablets had helped so many others, I decided to give Weldon a thorough trial, and I am glad to say that in a few weeks the pain and stiffness left me. I can now get my hand to my head, go up and down stairs without discomfort and feel like a new woman. If anyone doubts my statement I would be glad to have them call, write or telephone Evergreen 6846."

"\$1000 reward to anyone proving this testimonial is not genuine. Weldon tablets are always put up in a box—never in a bottle. Ask for Weldon tablets, which are recommended for rheumatism and rheumatic conditions only. Weldon tablets are absolutely harmless and will not upset the stomach, affect the heart or any other organ.

The Weldon representative, who now meets the public every day at Walgreen's drug store, 514 Washington Ave., St. Louis, gladly explains more about this remedy and gives out the 24-page fully illustrated and interesting book, entitled "Germs of Rheumatism," which are absolutely free of charge to all who call or write for them.

INQUIRY IN KILLING OF MRS. DE KING ENDS

Grand Jury Said to Favor Indicting Her Husband and Dry Agent Fairchild.

By the Associated Press.

GENEVA, Ill., April 25.—The grand jury investigating the killing of Mrs. Lillian de King in a prohibition raid at Aurora completed hearing of testimony today. It was reported a majority of the jurors favored indictments against Eugene Boyd Fairchild, dry investigator, and Joseph de King, husband of the slain woman.

The charge against Fairchild is perjury, for having sworn falsely to buying liquor at the De King home. It was his affidavit that led to the raid.

It was said most of the jurors favored the indictment of De King on a charge of liquor law violation and resisting an officer. The jurors were said to have told De King that he alone was responsible for the death of his wife.

Ten surprise witnesses testified they bought liquor of De King at his home over a three-year period. No indictment against Deputy Roy Smith, who fired the shot that killed Mrs. De King will be returned, it is reported. At the time of the raid it was asserted Smith had no way of knowing the affidavit which led to the raid was false. He has been in an Elgin hospital ever since the raid suffering from a wound received when Mrs. De King's 12-year-old son Gerald shot him in the leg. None of the raiding party of six will be held, it is reported.

EAST ST. LOUIS CONDUCTOR RECEIVES HEROISM MEDAL

J. B. Pickle Gets Award From Pennsylvania President; Saved Woman's Life.

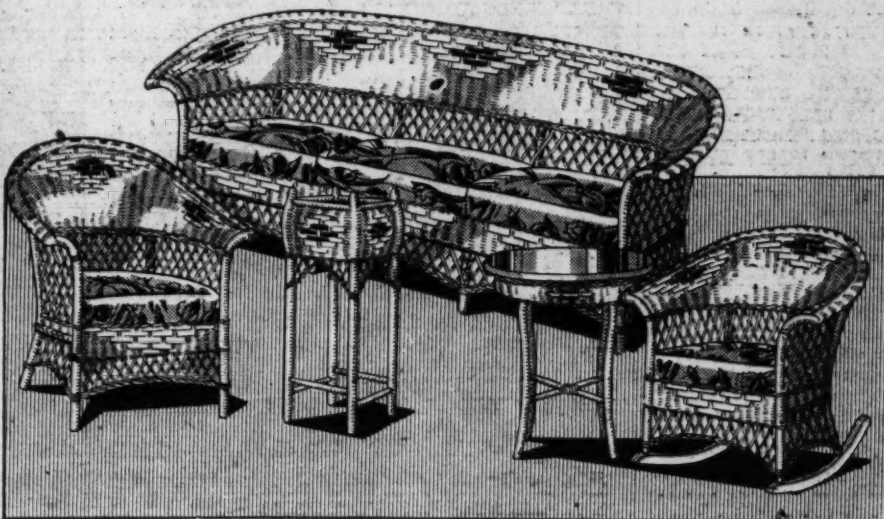

J. B. Pickle, 36 years old, of Rose Lake, a suburb of East St. Louis, a conductor for the Pennsylvania Railroad, was one of eight employees presented with a medal for heroism by W. W. Atterbury, president of the railroad, at Philadelphia yesterday.

Pickle saved the life of Mrs. Myrtle Fenter, a Fairmont City (Ill.) school teacher, on Jan. 12, 1928, by dragging her from the path of a train at Rose Lake. She stumbled while crossing the tracks and was stunned when her head struck a rail.

SENATE SMOTHERS
SMALL LOAN BILLS
BY DESPOTIC RULE

Progressives Beaten, 23 to 10, in Fight Against Arbitrary Action in Holding Measures in Committee.

LOUISANS WITH REACTIONARIES

Smothered Dodge Issue Raised by Dearmont, Seeking to Avoid Being Compelled to Vote on 42 Pct. Law.

By CURTIS A. BETTS, Staff Correspondent of the Post-Dispatch.

JEFFERSON CITY, April 25.—Spirited fight by progressives in Senate, under leadership of Senator Dearmont of Cape Girardeau, one of the younger Democratic Senators, to force abandonment of a rule by which legislation smothered at the will of a committee chairman, failed today before the united action of the reactionary forces by a vote of 23 to 10. The effect of the legislation of the Senate was that a committee chairman, when a bill is reported to his committee, may arbitrarily refuse to permit the committee to consider it, refuse to even hold committee meetings, and the Senate will neither take the bill from him nor force him to present it to the committee for action.

The fight arose over the action of Senator Buford O. Ellington in refusing to permit committee action on bills introduced to repeal the legal interest rate laws enacted under the small loan act, commonly known as the 42 per cent loan law.

The bills have been in the committee more than two months. "Vote in Committee Barred," Dearmont, as a member of the committee of Criminal Jurisprudence, to which the bills were referred, several weeks ago sought to force a vote taken on the question whether they or one of them should be reported to the Senate.

Buford, as chairman, ruled him out of order and refused to permit the bills to go to a vote. On three consecutive occasions since that time Buford has announced meetings of the committee on the regular meeting dates and then has either refused to appear to call the committee to order or has refused to call it to order when he did appear. Yesterday afternoon Dearmont offered a motion directing Buford to return the bills to the Senate. Immediately the ruling forces on the Democratic side, led by Senator Casey of Kansas City, president of the Senate, the chief purpose of which is to permit legislation to be passed, either because the author has for one reason or another lost interest in it, or because Senators believe they would be embarrassed by the votes they would feel compelled to cast if it went to a vote of the floor.

Senators Dodge the Issue. During the discussion, Senators Buford and Dearmont, seeking to avoid being compelled to cast a vote on the direct issue, Senator Casey offered a substitute motion that the committee be given further time to consider the bill, and Dearmont countered with the motion that in two months the committee had given no consideration to the measures. Casey opposed the last of authority and declared that the committee be given the motion, and let the vote be taken on the main issue, after much debate, McCawley complied. Senator Whitecotton sought to have the whole matter postponed until next Wednesday, but he, too, was refused to withdraw his motion.

When the vote finally was taken, the Senators lined up on the progressive side, and 23 voted in defense of Buford's practice and in support of the committee's control of bills by committee chairmen.

Voting for the Dearmont motion were: Bates, St. Louis; Curfman, Maryville; Dearmont, Cape Girardeau; Gurnea, Ottumwa; Haynes, Springfield; Hildreth, Macon; Ross, Cleveland; Wammack, Bloomington; Willard, St. Joseph; and Williams of Troy.

Those opposing the motion were: Rogers, Sedalia; Brogan, St. Louis; Greenless, Brookfield; Buford, Ellington; Casey, Kansas City; Cavell, Davis, Kansas City; Depelner, St. Louis; Donnelly, Lebanon; Gordon, Liberty; Harlin, Pineville; Kelly, Pineville; Kinney, St. Louis; Luther, Memphis; McCawley, Carthage; Meigs, St. Louis; Morgan, Unionville; Painter, Carrollton; Scarce, Eminence; Woodrass, Eldorado Springs; Terrell, Warner, St. Louis; and Whitecotton of Paris.

The bills which Dearmont sought to get out of the committee were introduced by Senator Brogan of St. Louis, who had made no deter-

LOUISANS WITH
REACTIONARIES

Dodge Issue Raised by Deamont, Seeking to Avoid Being Compelled to Vote on 42 Pct. Law.

By CURTIS A. BETTS, Staff Correspondent of the Post-Dispatch.

JEFFERSON CITY, April 25.—The fight against arbitrary action in holding measures in committee, which opened at the Jefferson City, Mo., session of the Missouri General Assembly today, was a battle between the progressives and the reactionaries. The progressives, led by Senator Deamont, sought to force the committee to report on the 42 percent law, while the reactionaries, led by Senator Burdett, sought to delay the report.

The fight arose over the action of the committee on the 42 percent law, which was introduced by Senator Deamont. The committee, which was composed of members of both parties, had been asked to report on the law. However, the reactionaries, led by Senator Burdett, had been successful in delaying the report for several days.

Senator Deamont, who is a progressive, had been successful in getting the committee to report on the law. However, the reactionaries, led by Senator Burdett, had been successful in delaying the report for several days.

The fight continued today, with the progressives seeking to force the committee to report on the law and the reactionaries seeking to delay the report. The progressives, led by Senator Deamont, were successful in getting the committee to report on the law.

FIGHT ON FARM ECONOMICS
IN SOVIET NATIONAL MEETING

Stalin Group Advocates Five-Year Program of Urban Industrialization—Opponents Would Concentrate on Rural Problems.

By the Associated Press.

MOSCOW, April 25.—The All-Russian Communist Conference which opened at Andreyev Hall in the Kremlin last night has developed into one of the most outstanding party gatherings since the October rising in 1917. The dominant group under the leadership of Joseph Stalin, has been called on to fight criticism of the right wing.

The accusations hurled at each other by the rival groups gave a vivid idea of the big issues involved. The dominant Stalin followers accused the rights of liberalism, opportunism and defeatism in the face of purely temporary difficulties by championing the cause of the fists, or rich peasants, in the belief that the latter, if given their way, naturally would grow into Socialism.

The rights, reported to be headed by Michael Tomsky, Alexey Rikoff and N. Bucharin, countered by accusing the dominant group of "extraordinary" or a leaning toward extraordinary measure and "military and feudal" exploitation of the peasantry.

The Stalin group sees a solution for the present economic difficulties, vigorous execution of a five-year plan of industrialization. The building of glass plants for both urban and rural Russia. The building of glass plants for both urban and rural Russia.

The Stalin group sees a solution for the present economic difficulties, vigorous execution of a five-year plan of industrialization. The building of glass plants for both urban and rural Russia.

In industrial centers while simultaneously organizing huge collective farm estates run on the most modern basis and augmented by intensive co-operation in individual farming throughout the country, upholding everywhere the poor and middle class peasantry while fighting the wealthy peasant.

The right wing, on the contrary, advocates two or three years' concentration on the problems of rural Russia at the expense of development of Russia's big industries. They also advocate the most liberal interpretation of the fundamentals of the new economic policy proclaimed by Lenin in 1921. They champion the cause of a market entirely free and devoid of limitations or control of prices, giving the peasants full way, encouraging his initiative and incentive in farming.

The Stalin leaders, however, hold that an entirely free market would serve to untie the hands of the rich peasants and render them an ever-growing menace to the existing state while failing to solve the problem of the poor and middle class peasantry.

A plenary session of the Central Communist Committee upheld fully the political bureau's stand against the rights and there is little doubt that the All-Communist Conference will follow a similar course.

HUGHES INDORSES
ROOT FORMULA
ON WORLD COURT

Thinks U. S. Should Enter Tribunal Through Plan Worked Out at Geneva Parley.

PRAISES KELLOGG
ANTI-WAR TREATY

He Characterizes Its Ratification as the Outstanding Event of the Year.

By the Associated Press.

WASHINGTON, April 25.—Charles Evans Hughes today stood publicly aligned with those who would bring the United States into the World Court through the medium of the formula worked out at Geneva by Elhu Root and tentatively accepted by other world powers.

In his address as president opening the twenty-third annual meeting of the American Society of International Law, last night, Mr. Hughes emphasized that judicial action was the indispensable requisite of any legal order and presented comprehensive arguments favoring American adherence to the court.

He spoke of "Institutions of Peace" and recognized the negotiation and ratification of the Kellogg treaty for the renunciation of war as the outstanding event of the year.

He said he did not care to discuss that article of the treaty regarding renunciation of war as a national policy, but declared that in his opinion the real promise of peace lay in the second article, by which the signatory powers pledged themselves to solve all disputes and controversies by pacific means.

Says T. S. Must Keep Pledge. He said "peace means" obviously covered diplomatic negotiations, conciliation and judicial settlement, and that whatever opposition there might have been to the giving of this pledge by the United States, the honor of the country requires the faithful performance of it.

Citing that the United States is not a member of the League of Nations and cannot participate in its activities, he asserted that he had always been ready to participate in international conferences in the interests of peace.

"Alliances," he declared, "are opposed to our policy; conferences in the interests of peace are not."

The former Secretary of State discussed at length advisory opinions of the Court, which long have been a stumbling block in the way of American entry.

"Whatever may be said of the practice of giving advisory opinions," he said, "it has been adopted in several States of our Union and it is a time-honored practice in some of the older States without detracting from the reputation and quality of the work of the most distinguished courts."

BORAH ATTACKS
HEFLIN IN PLEA
FOR TOLERANCE

Declares Alabamian Has No Right to Involve Senate in Controversy Over Disorder at Klan Meeting.

ASSERTS HE SPOKE
AS PRIVATE CITIZEN

Opposes Resolution as Allowing Chamber With Anti-Catholicism and Contrary to Constitution.

By CHARLES G. ROSS, Chief Washington Correspondent of the Post-Dispatch.

WASHINGTON, April 25.—Now and then Senator Borah of Idaho, that unpredictable man, rises to a splendid height. He did so yesterday in a reply to the incredible Hefflin of Alabama, who is trying to get the Senate to adopt a resolution denouncing the recent Boston-throwing episode at Brockton, Mass.

While Hefflin was there the night of March 18 to address a Ku Klux Klan meeting for a fee, somebody threw an empty bottle at a car in which he was sitting. The bottle missed Hefflin and struck a policeman in the head. Hefflin said that if the bottle had found its mark, it would have "crushed his skull."

Laughing himself into a characteristic frenzy, he demanded that the Senate go on record against this effort of the Brockton "assassin," behind whom he saw the influence of the Roman Catholic Church, to take his life with a "deadly missile."

Two Hours of Debate. The debate consumed two hours of the time that the Senate was supposed to be devoting to the subject of farm relief.

Senator Jim Watson of Indiana, the Republican leader, attempted to squelch Hefflin by reminding him that he was at Brockton not as a Senator of the United States but as a private citizen engaged in a campaign of his own making.

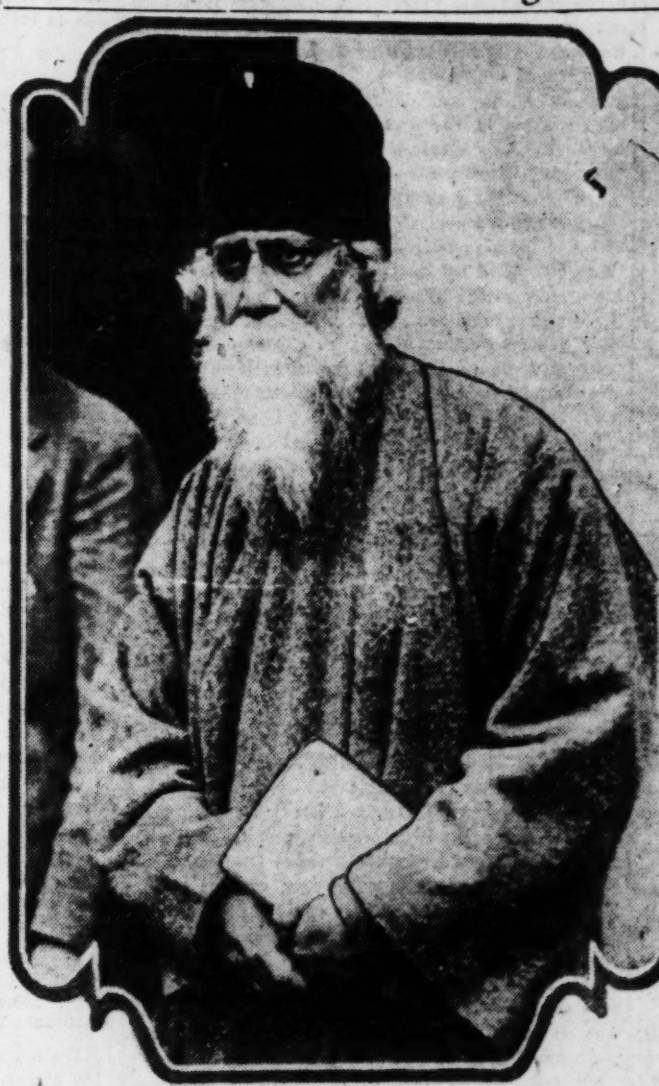

Senator Steiwer (Rep.), Oregon, pulled the record on Tom. He showed that in a debate last year, in which Senator Robinson of Arkansas defended the Catholic church against one of Hefflin's diatribes, Hefflin declared that if Robinson should make that speech in Alabama he would be tarred and feathered. Steiwer wanted to know what was the difference in principle between tarring and feathering a Senator for defending the Catholic church in Alabama and throwing a beer bottle at a Senator for attacking it in Massachusetts.

Borah Pleads for Tolerance. Senator Borah in a final thrust, at Hefflin made an eloquent plea for religious tolerance. Delivered in Borah's most forceful manner, the speech held the close attention of the galleries and the Senate. It was generally felt Borah had stated the issue in such a way as to kill whatever chance of adoption the Hefflin resolution might have had.

The Senator did not visit Massachusetts as a representative of the Senate," said Borah. "He was there as a private citizen. If this were confined to a question of free speech, or the right of peaceful assembly, and were presented in the right way, of course there'd be no hesitancy upon the part of the Senate in voting to maintain both principles, but the Senator has made the issue himself."

"He goes to Massachusetts and makes what is regarded as an anti-Catholic speech. He is assailed by someone. He immediately states that it is the Catholics, who have assailed him, that the man who assaulted him was, as he says, a Catholic criminal, and then when he presents his resolution here he assumes that those who oppose it are either Catholics or controlled by Catholics, and he closes his remarks by saying this is a contest between Roman Catholicism and Americanism."

Hindu Poet Visits Los Angeles

SIR RABINDRANATH TAGORE.

ON his visit to the west coast, the poet said immigration officers spoiled his pleasure. Tagore accordingly cut short his visit to the United States and sailed for the Orient yesterday. United States officers at Vancouver, B. C., where Tagore had his trouble, said it was occasioned by the poet's losing his passport, which caused some delay in admitting him.

Tagore, who is a representative of the generations which shall follow to preserve this principle of religious freedom in spirit and in letter, to preserve it and cherish it as one of those things which we will not permit to be challenged, one of those things which, as a free people, we dare not let die. "This principle embodied in the Constitution no doubt represented the view of the leading men of that day. The men of that time were not very far removed from the thumb-screw and the rack, from the pillar and the fagot, from the time when men's tongues were cut out that they might no longer utter the honest convictions of the mind. Many of them were descendants of those who had left their native countries in search of that liberty of conscience which they hoped to find in the wilderness of the new world."

Asks for Legal Proof. "Mr. President, I do not for a moment wish to question the sincerity of the patriotism of the Senator from Alabama, but I appeal to him when he says that the Senate of the United States must go on record either for Americanism or Romanism that he present to this body the legal probative facts which show that Romanism is undertaking to assail the Government of the United States."

Borah cited the Constitution and Thomas Jefferson on religious freedom. "What it cost," he declared, "in the long years which preceded the Constitution to have this enlightened principle so declared and so accepted, no language can tell, no tongue reveal. It is the saddest and darkest story in the history of the race, cruelly unspeakable, suffering infinitely."

A Spirit to Be Cherished. "It is the duty of this generation and this assembly here and

BY ONE PER CENT

Charge by Reichsbank Raised From 6.5 to 7.5 —Interest on Advances Goes Up From 7.5 to 8.5

By the Associated Press.

BERLIN, April 25.—The Reichsbank today increased its discount rate from 6.5 to 7.5 per cent. The action was delayed as long as possible in order not to hamper German industry.

The rate of interest on advances was increased from 7.5 per cent to 8.5 per cent.

Schacht Accused of Trying to Wreck Dawes Plan.

By the Associated Press.

PARIS, April 25.—Today's action of the Reichsbank in increasing its discount rate came one day after expert consideration of a situation which threatened to break down the Dawes plan, upon which the entire European post-war debt structure is built.

In French circles it was charged that Dr. Hjalmar Schacht, Reichsbank president, was deliberately trying to wreck the Dawes plan. A closed session of the Dawes plan transfer committee was held yesterday at the call of S. Parker Gilbert, agent general for reparations, to consider the situation represented by continued large withdrawals of foreign currency and export of gold from the German bank. While the transfer committee issued no communiqué it was said it had been told that depletion of the bank's gold reserves threatened a fall soon to its legal level.

Gilbert, in a statement, denied that either he or the Dawes Plan Transfer Committee had expressed an opinion to Dr. Hjalmar Schacht with reference to an increase in the Reichsbank discount rate. The French newspapers, voicing the views of responsible financiers, charged that Dr. Schacht was seeking to make the German economic situation appear precarious and unstable as justification for his plea for lower reparations payments.

This, it was said, was able to do by refraining so long from increasing the discount rate which would have tended to check withdrawal of gold and foreign currency from the bank. This withdrawal recently had taken such proportions as even to threaten stability of the mark, and—under the transfer clause—make possible postponement of the Dawes plan reparations annuities.

The situation as presented to the Transfer Committee yesterday probably was this: That the monetary circulation of Germany amounts to between 5,000,000,000 and 6,000,000,000 marks (\$1,250,000,000 to \$1,500,000,000) that the minimum gold reserve covering this would be, by law, 40 per cent, or about \$600,000,000; that since January, as a result of successive withdrawals, the Reichsbank's gold reserve has dropped to \$25,000,000 or only about 25,000,000 above the legal minimum.

FOR VACCINATING ALL FRANCE

Cabinet Recommends Wholesale Precaution Against Smallpox.

By the Associated Press.

PARIS, April 25.—The French Cabinet today recommended vaccination against smallpox to all French people as a precautionary measure.

Louis Loucheur, Minister of Labor and Hygiene, asked for action to this effect in a resolution which was promptly adopted. It was said the Government would strongly advise vaccination, but would not make it compulsory.

ST. LOUIS POST-DISPATCH

Founded by JOSEPH PULITZER
December 11, 1877Published by
The Pulitzer Publishing Company
Twelfth Boulevard and Olive Street

THE POST-DISPATCH PLATFORM

I know that my retirement will make no difference in its editorial principles; that it will always fight for progress and reform, never tolerate injustice or corruption, always fight demagogues of all parties, never belong to any party, always oppose privileged classes and public plunderers, never back sympathy with the poor, always remain devoted to the public welfare, never be satisfied with merely printing news; always be drastically independent; never be afraid to attack wrong, whether by predatory plutocracy or predatory poverty.

JOSEPH PULITZER.

April 10, 1907.

LETTERS FROM THE PEOPLE

The name and address of the author must accompany every contribution, but on request will not be published. Letters not exceeding 200 words will receive preference.

A Suggestion for the Plaza.

TO THE EDITOR OF THE POST-DISPATCH:
A SHORT time ago I asked a school teacher, residing in Waverly place, south of Lafayette Park, whose statue that was in the park facing Waverly place. She thought it was George Washington. Being curious, I asked her if she had ever seen the statue of Thomas H. Benton and why his statue was placed in the park. She knew very little about him.

How many members of the School Board know who Thomas H. Benton was and why his statue was placed in Lafayette Park? I venture to say that the two members who were defeated knew very little about him, but I am certain that the two who replaced them know. They were elected for their intelligent public spirit. They know why they were elected.

Then again, I doubt whether 10 members of the Board of Aldermen, or 5 per cent of the \$60,000 citizens of St. Louis, know who Thomas H. Benton was, or what he did, or have ever seen his statue.

I wish to make a suggestion to the School Board, the Board of Aldermen and the citizens of St. Louis, that an equestrian statue of George Washington be placed on one side of the main entrance of the Public Library, facing Olive street, and that the statue of Thomas H. Benton be removed from Lafayette Park and placed on the other side of the main entrance. And that a statue of Marquis de Lafayette, after whom Lafayette Park was named, supplant the statue of Thomas H. Benton in the park.

These will be finishing touches to our modern Roman forum with its temples and monuments on the plaza, and be an educator of the rising and many of the passing generation of City of St. Louis.

CHARLES A. VALLETTE.

What Champ Clark Said.

TO THE EDITOR OF THE POST-DISPATCH:
WITH reference to certain criticisms of public men made in recent speeches by James A. Reed, will you kindly print the following extracts from Mr. Speaker Champ Clark's book, "My Quarter Century of American Politics"? Found on pages 187-188 of Volume I. These are utterances of a gentleman, a nobleman and a statesman.

"The constant abuse of public men is a gross and unpardonable outrage. It surely and inevitably has a most deleterious effect upon the rising generation. It makes a young man who has an inclination toward public life think that to succeed therein he must be corrupt—that is, if he believes these foul charges."

"What effect must it have on the foreigner who comes to our shores, because in foreign lands they have been taught that we have the best Government under the sun—to read in the first paper they see, upon landing, or hear from the first person with whom they converse, that all our public men are semi-idiot or rascals? A man does not have to be a Solomon to realize that the effect is wholly bad, sometimes demoralizing."

"For the good of America—for the good of the human race—for the perpetuity of the republic—this wholesale slander of public men should cease at once and forever."

CHARLES E. REID.

Parking for Out-of-Town Shoppers.

TO THE EDITOR OF THE POST-DISPATCH:
I AM a merchant's wife from a nearby small town. We often drive to St. Louis to buy merchandise to fill in, and take our goods back with us in the machine.

One day quite recently, I came over, (bringing a friend in the car with me), expecting to buy a dozen hats, two dozen pairs shoes and several bolts of dry goods and a few dresses.

We drove up and down Washington avenue trying to locate a spot near the entrance of these wholesale houses, so we could park and our merchandise might be loaded into the machine. But nowhere from Eighteenth to Twelfth streets could we find a single space into which we could possibly park. We did park double in front of one place and were notified by a cop that we could not park double.

We explained that it would be for a short time only, as we knew exactly what we wanted to buy and it would not take long.

He was courteous but stern in his refusal to let us stay parked double.

The result is we had to make an all-day trip to get the few things we wanted, whereas 30 minutes at each place would have given us ample time, had we been able to park anywhere near the stores.

I know other small town merchants who have the same trouble. We know that St. Louis people must have a place to park their cars too, but it seems that all day parking being there where they are familiar with vacant spaces to park would select those places and leave at least a small part of curb parking space to out-of-town customers who come in a hurry and leave in a hurry. I would at best not exceed 1 1/2 hours parking.

MRS. FAIRPLAY.

"IC STATE POLICE.

Attorney-General Shartel has failed by five votes to put the State police bill through the House. He had impressive authority. It included Mr. Taft, the late Gov. Hadley, and most of the commissions that have surveyed modern crime in the United States.

All this made no difference to the House. It persisted in the view that Sheriffs and constables can preserve law and order upon the highways of the State, though it is the opinion of experts that without State police the only real security upon State highways is that enjoyed by highwaymen, bank robbers, murderers and all that predatory gentry which goes up and down in the land.

The action of the House adds one more defeated bill to the wreck resulting from an effort to do in Missouri what Mr. Hoover thinks should be done in the whole country about our unparalleled crime. Missouri is not alone in this respect. Her indifference, and her disinclination to follow the suggestions of those best qualified to prescribe a remedy for crime, are symptomatic. There is the same apathy all over the country. The bill supported by Mr. Shartel possibly had its faults. After such abuses of the State police as the country has witnessed in West Virginia and Pennsylvania, it is not surprising that this proposal encountered the hostility of labor.

But that is not why the proposal for a State constabulary which would have put 20 State police on the highways was defeated. It has suffered only the common fate of almost the entire legislative program submitted by the Missouri Association for Criminal Justice. Meanwhile, there were 32 bank robberies in Missouri last year, an increase over any prior year, including even the halcyon days of Jesse James. The robbers made off with \$177,500.

The Legislature has no plan of its own for doing something about it. Are we to assume from this action that it is satisfied with the situation?

"THE MOST UNKINDEST CUT."

Senator Heflin of Alabama had an unhappy experience at Brockton, Mass., a short time ago, where he addressed a Ku Klux meeting, and he thinks the Senate ought to do something about it—pass a resolution of censure or in some way express its displeasure. But Senator Gillett of Massachusetts has offered an apology which ought to smooth the Alabama statesman's ruffled feathers. "I know all the people of Massachusetts are sorry," he said. "I am sure the man who threw the missile and whose aim was so bad that he missed the Senator and hit a policeman, is sorry."

Missing Senator Heflin and hitting a policeman was, indeed, a regrettable faux pas. And, if we may say so, there's a fine edge to Mr. Gillett's amende honorable.

THE WAMMACK RESOLUTION.

It would be a pity if Senator Wammack's resolution submitting to a vote of the people the question of making the maximum of the budget mandatory upon the Legislature, remained bracketed, as it is now, with a proposal to make all State offices except those of Governor and Lieutenant-Governor appointive.

The people have a good reason for prizing their right to elect the officers of the State. It is doubtful if they would surrender this privilege, even for the sake of a budget. Unhappily, as the resolution stands, the second proposal could easily defeat the first and its expected saving of more than a half-million a year. They are made one. It is claimed for the resolution by its sponsors that if the Legislature or the Governor appointed the Secretary of State, the State Auditor, and the Attorney-General, the selections would be more discriminating than those made by the people.

There is merit in this claim, despite its disadvantage that in a democracy the election of such officials by the people constitutes a safeguard that no other system affords. The choices of the people may not always be discriminating, but they are less likely to be corrupt. The right to make State officers the choice of the whole people, rather than that of either the Legislature or the Governor, is one that resulted from the proved weaknesses of the latter system after centuries of trial. It is not lightly to be cast aside.

But why should this moot question be bracketed with the budget? The budget is something the State immediately needs. The economies that could and probably would result have much to do with the solvency of the State. The soundest and best way to create a budget and obviate the constitutional limitations now weighing against one is that proposed by Senator Wammack's resolution. How State officers other than those of Governor and Lieutenant-Governor should be filled is by no means a pressing question. It will bear discussion. Then why not leave that proposal for a later day and submit the budget upon its merits?

RAILROAD GRADE CROSSINGS.

The recent report of the Bureau of Public Roads at Washington to the effect that 390 railroad grade crossings were eliminated last year illustrates splendidly the result of the efforts being made to bring greater safety to everyone.

Only an aroused public sentiment against grade crossings where thousands of lives are lost every year, could bring about this great reduction in the number of crossings. Continuation of the campaign will bear fruit in the fewer grade crossing accidents and consequent loss of life.

St. Louis has its grade crossing problem, but an earnest effort is now being made to solve it, and with its solution will come the elimination of accidents and deaths at crossings in the city.

HAS IT ENTERED HARVARD?

A charge has been made in the Massachusetts Legislature by a member of that body, Representative J. E. Hagen of Somerville, that the Harvard School of Business Administration has been influenced by the Power Trust—that instruction is hostile to municipal ownership, that students are being taught a theory of regulation, particularly in the matter of valuation of public utilities for rate-making purposes, which is contrary to the doctrine and practice of the State's Public Service Commission.

Under questioning Mr. Hagen admitted he had no evidence to support his charges, but declared he had seen it and would presently produce it. President Lowell of Harvard has broken his rule of never talking to a reporter to observe, "Of course, it is not true."

We hope Mr. Hagen is mistaken and Dr. Lowell is correct. Yet the Power Trust, as is widely known, has gone into a great many universities and employed

professors as propagandists. No informed person imagines it would have any scruples about doing the same thing at Harvard if it could. The recent purchase of two Boston papers by a subsidiary of the International Paper and Power Co.—almost within the shadow of Harvard—removes any doubt, if any existed, as to the Power Trust's determination to control the sources of public opinion.

The public will naturally reserve judgment in the case of Hagen vs. Harvard, but there is no reservation in the public's judgment of the Power Trust.

MRS. DENNETT'S CONVICTION.

The conviction of Mrs. Mary Ware Dennett for sending obscene matter through the mails is, in some respects, more alarming than any manifestation of narrow Puritanism that has come out of the backwoods. It required only 40 minutes for a jury of Brooklyn business men to find Mrs. Dennett guilty, thus subjecting her to a possible sentence of five years in the penitentiary.

What is Mrs. Dennett's offense? Some years ago she was confronted with the difficult problem of instructing her two young sons on the subject of sex. She made a study of the available literature on the subject and found it faulty and unsuitable. So she proceeded to write her own views. The result was a little 18-page pamphlet so simply and soundly written as to be accepted as a model discussion for adolescents.

Organizations which are concerned with sex education, such as the Y. M. C. A., have used Mrs. Dennett's pamphlet for 10 years. It was endorsed by clergymen, published in the Medical Review of Reviews, used in the Bronxville school system and freely sent through the mails by religious and health societies. Strangely enough, the jury was not permitted to hear testimony to this effect. It was considered irrelevant by the Judge that highly reputable societies had disseminated this so-called obscene matter!

Of the jury's amazing verdict the New York World comments as follows:

It remains to be said that this indictment of very great importance to the public, has taken place in the City of New York, and not in a remote village of Tennessee; that the decision was reached in 40 minutes, and that the jury consisted not of 12 "hill-billies," at whom it was great sport for metropolitan newspapers to sneer, but of 12 average citizens from the supposedly far more enlightened, tolerant and progressive community of New York.

We must infer from this verdict that it is becoming a crime in the United States to take an intelligent attitude toward sex, and that the best way to keep out of the penitentiary is to pretend ignorance of the fundamental facts of life. Truly, the conviction of Mrs. Dennett is a sorry commentary on American civilization.

A GOOD AGG.

For a couple of weeks or more the Public Service Co. has been heckling motorists. Ten cents a mile in your auto, 3 cents a ride in the street car—that's the vicious propaganda they have been spreading in placards thrust right into the face of the man at the wheel.

Well, the Public Service Co.'s statisticians are, as usual wrong. It does not cost the motorist 10 cents a mile. An Iowa engineer, T. R. Agg by name, has gone into this thing thoroughly and found that the automobile owner operates his car at an average of 81.2 cents a mile, or 31.2 cents cheaper per mile than the Public Service Co.'s malicious calculations. On 10,000 miles, the average yearly mileage of a motor car, that is a saving of \$250.

We do not suppose any reparation can be exacted from the Public Service Co. for the anxiety it has caused countless auto owners with its reckless charges as to the cost of motoring. But one thing the auto owners can do. They can show their gratitude to that Iowa engineer by voting him a good Agg.

JUSTICE FOR TOM MOONEY.

As Tom Mooney, ex-labor leader, enters his thirtieth year of imprisonment in a California penitentiary, the movement to obtain justice for him gains momentum. Mooney was sentenced to death for alleged complicity in the explosion of a bomb during a Preparedness Day parade in San Francisco on July 22, 1916. Persistent reports that Mooney was being railroaded to the gallows caused President Wilson to take the extraordinary precaution of sending a commission to California to investigate the case. The commission, headed by Secretary of Labor William B. Wilson, rendered a report that caused President Wilson to urge Gov. Stephens to postpone Mooney's execution and grant a new trial. The new trial was never granted, but Mooney's sentence was commuted to life imprisonment.

Two informative and illuminating articles about Tom Mooney appear simultaneously in the May numbers of the American Mercury and Plain Talk. The Mercury article is written by a former San Francisco newspaper reporter, who gives a graphic picture of California's labor troubles out of which grew the persecution of Mooney. Senator Thomas D. Schall of Minnesota is the author of the Plain Talk article. Senator Schall points out that the Judge who sentenced Mooney, all 19 of the surviving jurors who originally declared him guilty, the Assistant District Attorney who helped conduct his trial, two Captains of Police who prepared the evidence, and the Attorney-General of California have all vainly petitioned for his pardon. The grounds upon which their petitions are based are that Mooney was convicted on testimony afterwards proved to have been perjured and that he is wholly innocent of the crime for which he has been sentenced.

Senator Schall's article concludes with this plea: I strongly feel that the conviction and imprisonment of these men (Mooney and his friend, Warren K. Billings) is a challenge to our republican institutions. This shameful situation should arouse the deepest resentment of every decent citizen, regardless of political belief or economic opinion, and every liberty-loving American should write to Gov. Young of California and demand that he pardon Mooney and Billings or give specific reason for not so doing. Public opinion is the lever that will pry apart their prison bars if enough real Americans register their indignation at the State House at Sacramento.

The story of the Mooney case is revolting to all sense of decency, justice and fair play. If Gov. Young, in his judgment on the Mooney case, shows half the breadth of vision he displayed in pardoning Charlotte Anita Whitney, Mooney will soon be a free man.

Budget cannot derive from budge, or the Missouri Legislature would do so.

THE REAL BUNION DERBY.

Greed at the River Crossings

Private interests today control more than 80 per cent of toll bridges in all parts of the Union; the investment has swelled to the sum of \$120,000,000, with a net operating income of \$14,000,000 and an earning power of 13.9 per cent; the toll bridge is an offensive violation of the principle of free highways.

Smith W. Brookhart, United States Senator from Iowa, in American Motorist.

AMERICA thinks and acts today in terms of "public interest." In almost every field directly affecting the welfare of the people there has been some form of regulation adopted to safeguard the interest of the masses. This is true in the case of the railroads, of large corporations, of radio, of aviation, and many others too numerous to mention. Moreover, in almost every instance, citizens are given an opportunity to be heard before policies of regulation are decided.

However, as improved highways spread to all parts of the country and the age-old ferry gave way to the march of progress, there cropped up the toll bridge. Located at strategic points on the traffic-crowded and free highways of the nation, many of these have reaped wealth for their owners and there has been every sign of "greed at the River Crossings." At the same time there has been absolutely no regulation other than to see that they did not interfere with transportation on the rivers.

On the other hand there have been many operators of toll bridges who were cognizant of "public interest" and by providing adequate service and limiting tolls have rendered a service to car owners. But these, I regret to say, are sadly in the minority.

It is significant, in view of the many moves to safeguard the people, that those toll bridges have been allowed to sprout up like mushrooms. In most instances they are like the tentacles of a giant octopus, sapping the life-blood out of the principle of the free highways.

Private interests today control more than 80 per cent of these toll bridges; the investment in them has swelled to the gigantic sum of more than \$120,000,000; the net operating income is \$14,000,000 a year, and the earning power of these river crossings is now 13.9 per cent.

To this might be added the far more serious situation that exists through the peddling of toll bridge franchises. Congress, which grants these franchises without adequate safeguards to the public, is largely responsible for this commercial traffic in bridge sites which rightfully belong to the people.

The most important part of any road system is its bridges. The prairie schooner crossed the broad prairies with comparative celerity, but found great difficulty when it approached the streams. The development of our country and the advancement of its civilization have come with the building of bridges. Bridges cannot be considered otherwise than as the most elemental part of the highway system.

In the United States we are committed beyond recall and even beyond argument to the free highway system. The toll bridge is an offensive violation of this principle and has no standing as an integral part of the American road system. It is not only a gross obstruction of traffic, but is even more a gross insult to the American spirit of freedom. We are committed to the policy of free public roads as strongly and irrevocably as to the policy of free public schools.

While it is unquestionably true that

many toll bridges have given and are giving needed public service at a fair cost, it is equally true that scores of them levy an exorbitant tribute on the motoring public—a tribute sometimes amounting to nearly 300 per cent on the capital investment. At the present rate of granting franchises, the number of toll bridges in the United States will double in a few years.

Let's see what the existing situation is with relation to these bridges. On Oct. 1, 1927, a survey by the Bureau of Public Roads revealed the fact that there were 233 toll bridges in operation on the highways of the United States. Of this number, 42, or 18 per cent, were owned by the public, and 191, or 82 per cent, were owned by private interests. On the same date 29 more were in process of construction. Of these, nine, or 31 per cent, were owned by the public, and 20, or 69 per cent, were owned by private interests.

The Sixty-ninth Congress authorized 55 more toll bridges. Of these, 12, or 22 per cent, were granted to public agencies, and 43, or 78 per cent, were granted to private interests. An even greater number were authorized by the Seventieth Congress and the proportion of franchises secured by private interests is just as large.

From this it can easily be seen that the toll bridge question is national in character, not only because of the use of these bridges in interstate commerce, but also because of their location in nearly all the states of the Union. Of the 262 bridges in operation or under construction at the time of the Bureau of Public Roads' survey, 155 are intrastate bridges in 21 states; 97 span streams which constitute the boundaries of states, and 12 are international bridges, of which five are on the Canadian boundary and seven are on the Rio Grande in Texas. There are only nine states that have no toll bridges in operation or building within the state, or spanning a boundary stream. They are Colorado, Connecticut, Delaware, Massachusetts, New Mexico, Nevada, Rhode Island, Utah and Wyoming. The other 29 states all have one or more of such bridges in operation or under construction. There are 14 toll bridges in operation on the Mississippi River, and four more under construction. Among the bridges east of the Mississippi River, there were 119 toll bridges built or building, and west of the Mississippi River, there were 125 financed by tolls.

It appears from this that privately-owned bridges are earning 13.9 per cent upon their cost, and the publicly-owned bridges earn 3 per cent. Both figures are excessive when we consider the American proposition in its broadest sense. The soundest economic reasons demand that the public make these bridges free. It would lower the interest rate, save a large amount in the expense of operation and collection of tolls, besides being of great value in speeding up the traffic.

NOTE ON OPPORTUNITY.

From the Dallas News.
O P P O R T U N I T Y knocks but once. Evidently it isn't motor-driven.

WASHINGTON DAY BY DAY

WASHINGTON April 25
It has become quite a habit with us late as we wander through the corridors of the many Government buildings to keep on the look-out for the agencies and people engaged in the about which little is known.

It is surprising how many there are some instances these little known ones are to be found in places far off the beaten track. They start a job, work at it, and often finish it with only a few outside their immediate offices knowing anything about it.

Our latest find was just the other in the navy building. It was a board, working under authorization of Congress, compiling a Federal stock log.

INVESTIGATION revealed that the board was doing just what the name implied. There was being listed in orderly classified arrangement all supplies procured, stored and issued by the various branches of Government. The type of material furnished in each item the information necessary for procurement, storage and issue.

In other words, the Government is pretty much the same thing that most of our houses have done. It is taking inventory of supplies it has on hand, listing them, and at what cost.

Rear Admiral T. H. Hicks, chairman of the board, gave us an idea as to the scope of the task and the necessity for such a catalog.

The Government's requirements in the way of supplies cover a very great range. This is reflected in the catalog by the segregation into 41 classes for storage and issue of the upwards of 60,000 items it lists. It is also shown by the fact that commodities are obtained from 41 groups of industry, not to mention the divisions where specialization in supplies has developed.

At present, items of supplies are designated mostly in official papers in whatever manner the writer of the paper chooses. As a result, efforts to obtain accurate information are almost as difficult as employing different languages.

Uniform description and nomenclature will eliminate this.

BUT Rear Admiral Hicks says there is an even greater need than this. He believes that the catalog will fill a need of the nation in case of war. Since 1918 the navy has had a standard stock catalog. During the war, navy vessels and bases in Europe were able to make known their needs and obtain them with certainty while operating 1000 miles from the sources of supply.

The same conditions should prevail every other branch of the Government. This catalog, in time of war, would be a most valuable asset to the Government, and industry would be prepared to meet them with the least delay and confusion.

Making Ma

JOHN G. NEIHA

in the High Atlas

THE LIONESS. By Ferdinand Ossendowski. (Dutton).
As a travel-writer that Ferdinand Ossendowski won the title of "The Lioness" through his notable chiefly for the tales that distinguish the author's books of travel. In the waves of plot, Ossendowski shows no lack of skill; but the tale holds the attention nevertheless, because the author undoubtedly knows the people and the country of which he writes and has the power of vivid imagination. In a foreword he addresses the reader that he "did not write the reader's imagination," but "entirely upon his imagination," and which actually took place in a scenery, amongst a people painted from nature and from life. Throughout, he cites authorities which may be consulted for "proofs of this realism," for "proofs seem unnecessary."

The action of the tale takes place principally in the High Atlas region during the Rif War, a highland tribesman, a passionate and shrewd with him. They are happily together when, owing to a bit of misfortune in the robbing of a merchant caravan, Ras is obliged to flee in the mountain wilderness. Many adventures befall him and he meets some all with a strong heart, for Ras is the most beautiful and most faithful woman in the land, waiting for him back in his native village.

But at length Ras learns that her husband has been lured away from her by a slave merchant, masquerading as the husband's trusted friend. Knowing what this means, and living only for revenge, Ras sets out to find his wife and her betrayers. He succeeds. But the old Ras, having been dragged through the brothels of Fez, is to him like a "white slave" that has been rotting in a sewer. He can not desert her because of the precious memories of their days that cling about her. Neither can he live with her again, for together seems to be the fifth solution of the problem. He then the wild tribesman fighting his hills against the foreigner, Ras, accompanying him as his guide, and the end comes in a forlorn charge against machine guns.

Captain Felix Rosenberg and William McFee, both celebrated writers and authorities on maritime matters, have come to the attention of Joan Lowell and her "Cradle of the Deep." Mr. McFee, in a letter to the publishers, has the following to say:

"Personally do not see that you have any reason for backtracking the matter of Joan Lowell's book. The type of mentality which is raising a ruckus over the meticulous details of Joan's story is too

Remov

Film discolors
Dentists urge

WINNING smiles depend on white teeth—and teeth like depend on freedom from what dentists call film. Film is a stubborn, clinging thing that ordinary ways fail to successfully. It is the chief source of tooth and gum disorders. Remove film with the special dentifrice called Pepsodent.

Film—how it destroys
You can feel film with your tongue, slippery, viscous coating. It clings and gets into crevices and stays sorbs dingy stains from food and smoking to turn white teeth "off color" and cloud their natural brilliance.

TO SELL MEXICAN RAILWAY

LAYS BANKRUPTCY TO STYLE CHANGES AND COMPETITION

President of Retail Shoe Firm Lasting \$200 in Debts, \$4700 Assets, Testifies.
Rapidly changing styles in women's shoes and competition from independent and chain shoe stores caused the Reader Shoe Co., which operated a store at 4516 Easton avenue, to enter bankruptcy March 29 after it had shown a shrinkage in assets of nearly \$11,000 last year, according to the testimony of Charles E. Reader, its president, in Bankruptcy Court today.

Reader, who said that he had been a shoe salesman since his retirement from active management of the company 10 years ago, explained that a chain shoe store had been opened next door to his place of business last year and that an independent dealer had opened a shop across the street. New styles in fancy footwear forced his company to sell below cost and caused losses that impaired its credit, he stated.

A financial statement as of Jan. 1, 1928, showed the company had a net worth of \$7400, whereas its bankruptcy schedules show liabilities of \$2300 against assets of \$4700. The company has been in business in St. Louis since 1904.

PILGRIMAGE TO IRELAND

Cunard Manager in That Country in St. Louis in Interest of Towns.
T. C. Brierton, manager of the Cunard Steamship Co.'s office in Ireland, is visiting the St. Louis offices of the company in the interests of the excursions which the company will conduct to Ireland this summer.

One trip will be made to Galway in connection with the Crough Patrick pilgrimage and another to Galway and Cobh in connection with the Daniel O'Connell Emancipation celebration in Dublin.

The Irish Tourist Association is co-operating with the Cunard Lines to improve hotel and transportation facilities in Ireland.

TO SELL MEXICAN RAILWAY

Santa Fe Head Confirms Reported Deal for Part of Its Lines.

TOPEKA, Kan., April 25.—W. B. Storey, president of the Atchafalaya, Topeka & Santa Fe Railway, today confirmed recent reports that the road had contracted with interests in Mexico, headed by E. F. Johnson, sugar magnate, to dispose of the properties of the Kansas City, Mexico & Orient Railroad in Mexico. Terms of the contract were not disclosed. The Santa Fe purchased the Orient lines in the United States in Mexico last year.

It is understood unsettled conditions in Mexico led to the decision. Fine for Bottle-Thrower Upheld.
A fine of \$100 levied in Police court against Clifford, Kempe, 26 years old, of 3531A Missouri avenue, for the throwing of a bottle from an automobile into Grand boulevard, sustained today by Judge Butler in the Court of Criminal Correction, on appeal.

SENATE SMOTHERS

SMALL LOAN BILLS BY DESPOTIC RULE Continued From Page 23.

much has been paid to induce some young Senator to offer this motion? (This reference was to Charles M. Hay of St. Louis, former Democratic nominee for United States Senator, who appeared before the committee advocating passage of the bills, and who was in Jefferson City Tuesday in an effort to induce action on them.) "I come from the hill countries of the Ozarks, where there never has been a bank failure."

Paid State \$33,000.

There are 170 of these loan companies in the State and they paid into the State revenues \$23,000. The general Senator from Cape Girardeau who represents the South East Missouri Tarders' College, is asking for \$448,500 from the State. These loan companies paid in \$33,000 to help meet the requirements of the Senator from Cape Girardeau. Who represents the loan companies' borrowers? I wouldn't insinuate that anybody in the Senate represents them. I don't represent the liquor thieves, hindlers, 200 per cent fellows, if the Russell Sage foundation is wrong, investigate it.

"I want to know how much the short-mustached fellow has been paid, trying to break into the Senate by proxy."

At the height of the debate, Senator Cave, Democratic floor leader, moved an adjournment, his motion prevailing.

The small loan repeal bills have been the subject of several near scandals in the Legislature. Cole County grand jury several weeks ago made a perfunctory investigation of allegations of graft in connection with them. Similar bills in the House were held in committee several months, and were taken to the floor only after the adoption of a motion requiring the committee to report them.

HUGHES INDORSES

ROOT FORMULA ON WORLD COURT Continued From Page 23.

World Court) will not prevent such opinions."

Mr. Hughes added that the terms of the Root formula in relation to American adherence afforded a definite opportunity for objection by the United States to opinions in which it claims an interest and furnish suitable protection of the interests of the United States.

The one notable lack in the perfection of the institutions of peace, he said, exists with reference to

participation by the United States in efforts to maintain peace in the event of acts of aggression by any state a member of the antiwar treaty.

"Alliances," he said in conclusion, "are opposed to our policy; conferences in the interests of peace are not."

"If we were to support the Per-

manent Court of International Justice and if we were to supplement the Kellogg pact by a treaty for conference and consultation similar to the pacific treaty, should we not be taking entirely practical steps for the building of the institutions of peace without violence to any of our cherished traditions?"

"JUMPY NERVES ARE DANGER SIGNALS TO US" RAILROAD MEN TELL CIGARETTE PROBERS

Investigators Find Tareytons Outstanding Favorite Here

"STEADY NERVES" THE REASON GIVEN

PHILADELPHIA, PA.—It's another scoop for Tareytons. Another victory. In a railroad check-up just completed, they're outdistancing the field in cigarette popularity. That's today's big news in the rivalry for cigarette supremacy. Tareytons have won again with sensational sales increases.

Trained investigators searched out the facts. In scores of cities. Along the routes of four of the largest Eastern railroads.

They talked to engineers, firemen and dispatchers. Conductors, signalmen and section gangs. Clerks and company officials.

They found "nervy strain" ... everywhere! Minutes divided into seconds. High tension and high pressure.

And they found that Tareytons had supplanted ordinary cigarettes because of this faster tempo.

Women in railroad offices have switched to Tareytons "because of the nerve strain." Even club car porters have noticed this big change in cigarette preference.

Today ... Tareytons are setting the pace ... leading the field with spectacular sales increases.

Factories are running night and day. "Can we ever make enough to meet this great demand?" Union Tobacco Co. officials ask.

Pick the winner, if you want the utmost in cigarette pleasure. Switch to Tareytons. You'll enjoy smoking more.

CLEAR TRACK AHEAD. Switchman Frank Metosh gives a freight the main line after the limited has passed. Yes, that's a Tareyton he's smoking!

PASSENGERS, TOO! "Tareytons are getting popular on these trains," says Porter James Abrial. "More and more folks ask for them. Guess everybody wants steady nerves."

PLAIN OR CORK

TAREYTONS

© 1929, The Union Tobacco Co., New York City

Make the break now from common coffees to this triumph of science and blending skill. See, smell and taste the difference. Note the seven to ten cups more per pound. Clear, aromatic, distinctly delicious. You'll say "I'm Sold!" Cheaper to use because the full original over used flavor is captured, locked up, retained for you in a key-opening can.

H&K of course!

31 YEARS EXPERIENCE

28 PYLE RACERS PLOD ON TO SULLIVAN, MO.

Pat Harrison Hears Reception From Home Folks Awaits Him There.

The pay-as-you-enter peregrination of C. C. Pyle's plodding pavement pounders pushed out of Maplewood at 7 o'clock this morning for Sullivan, 60 miles away, where, Runner No. 172, Pat Harrison, has been informed, a noisy, enthusiastic welcome awaits him from the home folk.

Harrison, a tall, thin blond with a ready grin and industrious elbows that dig in the air when he walks or runs, was off at a long, easy 6-mile-an-hour jog, at the starting signal.

He has been talking for days of how he would "show the home folks," and despite the chilly weather which he detests, he obviously was holding down his speed and conserving his energy with difficulty.

To the other calloused couriers—only 28 remain of 91 starters—it was just another long hard day. The memory of Tuesday's 60-mile travail from Vandalia to Collinsville was sufficient to hold down the early speed, although most of the men were in fairly good shape after yesterday's short run of 22 miles, which the leaders negotiated in less than three hours.

Jesse Datzell, the other Missourian in the race, a slight, wiry, 21-year-old former bellboy, was preparing for an effort to move up through the ranks of the leaders from sixteenth place. The caravan will stop in his home town, Springfield, Tuesday night.

George M. Rehahn, the vegetarian "Singing Dutchman," who has been worried because his funds

were running low, was more cheerful than he has been in days. He told a Post-Dispatch reporter of his plight Monday, the story was published and Dr. George Ahrens, the German Consul, gave the runner financial aid. The vegetable fund is now assured.

Peter Gavuzzi, who says "bally"

was running low, was more cheerful than he has been in days. He told a Post-Dispatch reporter of his plight Monday, the story was published and Dr. George Ahrens, the German Consul, gave the runner financial aid. The vegetable fund is now assured.

HE WAS LIFELESS AND DESPONDENT

But ALL-BRAN made him wide-awake and well—doctor prescribed it

CONSTIPATION ruins hopes, saps strength. Yet thousands of sufferers have found the way to relieve and prevent this disease. Read how this man rid his system of constipation.

"During the three years before ALL-BRAN cured me, I experienced more embarrassing moments than I care to tell. Being lifeless, dull, lazy and despondent, I could not keep my job. My friends didn't want my company and I was tired of being asked 'What in the world is the matter with you?' 'After spending much money for treatment, I finally found a doctor who advised me to eat ALL-BRAN three times a day. I did this for three months and I didn't need to be told that I looked better. I felt better and acted better. I am still using ALL-BRAN every morning and have no trouble whatsoever.' (Name and address upon request.)

Guard against constipation by eating Kellogg's ALL-BRAN. ALL-BRAN is guaranteed to prevent it—to relieve it. Just eat two tablespoonfuls daily—chronic cases, with every meal. Far better than habit-forming drugs and pills.

ALL-BRAN is 100% effective. Doctors recommend it because it promotes natural elimination. Serve it with milk or cream. Use it in cooking—muffins, bread, etc. Delicious recipes on the package. Grocers sell it. Restaurants, hotels, dining-cas service it. Made by Kellogg in Battle Creek.

and "jolly well," and who was born in England, still is leading by about four hours. John Salo, who won \$10,000 and a job as a policeman in Passaic, N. J., by finishing second in last year's marathon, is second.

Correction for Allemania Avenue. It was erroneously stated in Monday's editions of the Post-Dispatch that residents in the 4600 block of Allemania Avenue were rescued from their homes by police in rowboats, following the storms of Saturday and Sunday. The rescue work was done on Fairfield place, formerly Germania Avenue, one block south of Allemania Avenue. The only damage done in the 4600 block of Allemania Avenue was to flooded cellars.

</

BIGGEST FIRST QUARTER In the History of The Sun

THE first three months of 1929 constituted the biggest first quarter of a year The Sun has ever had in volume of advertising.

January 1929 was the largest January in the history of The Sun. February was the largest February. March was the largest March.

During the first quarter of 1929 The Sun published more than 4,550,000 lines of advertising, leading the second New York evening newspaper by more than 950,000.

The Sun's gain during this period—a gain of over 375,000 lines—was much larger than the gain of any other New York evening newspaper.

Which means that advertisers in increasingly large numbers are profiting by The Sun's remarkable ability to produce results.

IN CIRCULATION, TOO, The Sun is going ahead more rapidly than ever before. The average daily net circulation for the six months ended March 31, 1929, was 309,389, a daily gain of 27,237 over the same period of last year. The Sun's cumulative gains, continuous since 1925, total 62,019 as follows:

A Gain Over April 1, 1928, of 27,237 Daily

A Gain Over April 1, 1927, of 41,869 Daily

A Gain Over April 1, 1926, of 50,038 Daily

A Gain Over April 1, 1925, of 62,019 Daily

Quart of Water Cleans Kidneys

Take a Little Salts if Your
Back Hurts, or Bladder
Is Troubling You

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known author. Excess of food, nervousness, indigestion, which excite the kidneys. They become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood. Then we get sick. Rheumatism, headache, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys, or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, begin drinking a quart of water each day, also get about four ounces of Jad Salts from any pharmacy, take a tablespoonful in a glass of water before breakfast, and in a few days your kidneys will act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to flush and stimulate the kidneys; also to help neutralize the acids in the system, so they no longer cause irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; makes a delightful effervescent lithia-water drink which everyone should take now and then to help keep the kidneys clean and active and the blood pure, thereby averting serious kidney complications.

QUICK RELIEF FROM CONSTIPATION

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. Dr. Edwards, a practicing physician for 20 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Olive Tablets do not contain calomel, just a healing, soothing vegetable laxative mixed with olive oil. No gripping is the "keynote" of these little sugar-coated, olive-oiled tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "drowsy brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick relief and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night to keep right. Try them, 15c, 50c, etc.

Diet the menace of Hollywood Stars wrecked seeking slimmness

PHOTOPLAY MAGAZINE recently revealed that many motion-picture stars ruin their health seeking slimmness. The motion-picture camera adds from 5 to 20 pounds to the appearance of a star's face, so that many of these celebrities become victims of dieting.

One famous star died of tuberculosis brought on by weight reduction. Another ruined her career and was made invalid by starvation. Still another died of heart trouble, and our dear mother-in-law, grandmothers and fathers are today virtually invalids. Another star is mentioned who collapsed on a set after losing 10 pounds.

One of the leading dieting extremes indulged in by the stars, according to Photoplay, is eating no food at all for breakfast, and seriously limiting nourishing foods for both luncheon and dinner.

No person can be healthy without eating enough nourishing food daily and regularly. The tragic experience of motion-picture stars should be a warning to all women and men to eat enough for breakfast, lunch and dinner. It is a dieting error to suggest eliminating sugar from the diet, for sweetness is the perfect flavor that makes all of the healthful foods so delicious. Serve a delicious meal of fruit and cereals for breakfast sweetened for enjoyment. Learn the value of sweetening in the cooking of all vegetables for delicious flavors. Sweetening improves the taste and flavor of fruits and cereals. Sugar and flavoring make delicious milk-shakes and egg-nogs.

See that every member of your family eats enough. The best cooks are generous with sugar. The Sugar Institute.

COURT DENIES DELAY TO SEX PAMPHLET AUTHOR

Declares Verdict Proper and
Will Sentence Mrs. Dennett Monday.

Special to the Post-Dispatch.
NEW YORK, April 23.—The motion by defense counsel for Mrs. Mary Ware Dennett, grandmother of the author of a sex pamphlet, was denied today by Federal Judge William B. Burrows in Brooklyn. Judge Burrows said he would sentence Mrs. Dennett next Monday. The white-haired prisoner faces a Federal penitentiary term and a fine of both.

Norris Ernst, attorney for Mrs. Dennett, argued today that the barring of his expert witnesses at the defense hearing was a denial of the right to a fair trial. He said that the defense had been denied the right to a fair trial by the denial of the right to a fair trial.

At Mrs. Dennett's trial for sending a pamphlet entitled "The Sex Side of Life" through the mails, the court ruled the pamphlet was the best evidence. It was read to the jury, which decided it was obscene. The court barred attempts to introduce as defense witnesses a number of authorities on education, medicine, morals and psychology.

These were prepared to testify that the pamphlet was a worthy educational treatise. A copy of the pamphlet is to be mailed to President Hoover, Forrest Bailey, director of the American Civil Liberties Association, announced.

"A committee like the famous Scopes evolution committee is in process of being formed," said Bailey. "It will be composed of educators, medical men, sociologists and others who consider this pamphlet an important educational factor rather than an obscene thing. These people will affix their signatures to the letter accompanying the pamphlet to the opinion of the book. We are also writing a letter to postal authorities asking them what they are going to do about it. There is no reason why Mrs. Dennett should bear the brunt of a decision that affects all."

TO ASK FOR COUNTY SEWER DISTRICT DATA

Chamber of Commerce Prepares Questionnaire to Be Sent to Supervisors.

A questionnaire for the purpose of making public details of organization and operation of seven sewer districts in St. Louis County will be mailed to each of the three supervisors in each district by the St. Louis County Chamber of Commerce, it was announced today.

The organization has opposed broad powers granted supervisors and officers of the sewer districts by the Ralph sewer law and unsuccessfully sought to have it amended. It employed engineers to make a survey of the county sewage.

and prepared a rough unified sewer plan.

"Taxpayers are unable to obtain information concerning the conduct and progress of the districts," Jefferson R. Smith, secretary-manager, said. "Supervisors have no medium for giving this information and the county chamber was requested to prepare a summary. The cost of the seven districts organized will be between \$15,000,000 and \$10,000,000 and more than 150,000 persons are directly interested."

The information sought includes progress made in organization and the probable time of beginning construction; amount of money already spent and estimated cost of the project; names and salaries of supervisors, attorneys, engineers, secretary and other employees and the amount and basis of their compensation; whether supervisors' meetings are open to the public, and a general description of the sewer plan and arrangements for disposition of sewage.

BOMB DRIVES 50 FAMILIES TO THE STREET IN CHICAGO

By the Associated Press.

CHICAGO, April 25.—Two bombs, one of which drove 50 families to the street and injured one person, exploded during the night.

The first explosion was in a vacant flat building on the near northwest side and may have been caused by labor troubles. It resulted in \$400 damage.

The second bomb, a black powder contraption, was tossed from an automobile at the Alyce apartment hotel, Drexel boulevard and Forty-eighth street. It exploded beneath the apartment in which Elmer Sweeney, a packing company worker, was asleep, and he was cut by flying glass. Everyone in the building was shaken and rushed to the streets, many in night clothing.

Bird Refuge Proposal Engrossed.

JEFFERSON CITY, April 25.—An enabling act, permitting the Federal Government to acquire and operate migratory bird refuges in Missouri, was engrossed yesterday by the Senate. Senator Wamack of Bloomfield sponsored the proposal. The act is necessary if Missouri is to share in the migra-

tory bird sanctuaries provided for in the Norbeck bill passed by Congress last session. Senator Hawes of Missouri is on a commission which will survey sanctuary sites.

Dizzy Spells Mean too High Blood Pressure

Do you have dizzy spells? Does your heart palpitate or your breath become short on slight exertion? Are you weak, nervous and a poor sleeper? Have you ringing in your ears?

High blood pressure may cause any one or all of these symptoms. And if neglected may lead to a premature death by apoplexy.

Bi-a-lin, the prescription of a noted doctor, quickly and safely reduces high blood pressure to normal by immediately clearing out the poisons that clog the blood vessels and force the heart to overtax itself. Results are amazing. You'll feel a new sense of well-being almost at once. For renewed health try Bi-a-lin today—harmless, easy to take and guaranteed to satisfy you or money refunded. Sold by all first class druggists.

Gas Pressed Heart, Made Woman Faint

"Often I would faint from the pressure of stomach gas on my heart. From the first bottle, Adlerika brought me real relief."

Mrs. R. H. Connell.

Adlerika, a simple glycerin, buckthorn bark, saline compound, acts on BOTH upper and lower bowel and brings out foul matter you would never believe was in your system. This old matter may have poisoned you for months and caused GAS, sour stomach, headache or nervousness.

Try this simple proof: Take any medicine which acts on lower bowel only—most laxatives do. After your bowels have moved, take Adlerika and in a short time you will be astonished at how much MORE sour old matter and GAS is brought out!

Dr. H. L. Shook, New York, writes: "In addition to its cleansing, Adlerika checks the growth of intestinal bacteria."

Dr. J. Weaver: "In my 30 years practice, I have found nothing excel Adlerika."

J. E. Puckett: "After using Adlerika I feel better than for years. Awful impurities were eliminated."

Give your stomach and bowels REAL cleansing with Adlerika and see how good you feel! Just one spoonful relieves GAS and constipation. At leading drug stores. Sold in St. Louis by Weidman Drug Stores. Send for FREE color brochure. ADLERIKA, Dept. 10, St. Paul, Minn.

Simple Science for Everybody

By Colin G. Welles, Ph. D.

PLANTS AMERICA GAVE THE WORLD.

THE discovery of America gave the world something more than jazz music and Wild West movies and skyscrapers.

Up to the time when the first colonists came, civilized men of Europe had never tasted corn or the cob or peanuts.

They had never seen a passion flower and they had never tasted tomatoes. And, more astounding than these, they had never eaten "Irish" potatoes, and Sir Walter Raleigh's friends threw water on him in the hope of extinguishing the fire when he smoked his first tobacco.

The Indians introduced the first white settlers to the joys of pineapple, corn, guava and papaya. And seeds of all of these were carried by returning travelers back to their European homes.

Columbus himself told Queen Isabella of Spain that he had found, instead of the spices of Cathay, tobacco and sweet potatoes.

Cortez, when he landed in South America, found the Aztecs using cacao and vanilla and making sugar from the century plant. It was here in Bolivia that potatoes were first used as a staff of life. The Aztecs were much more daring than Europeans, who feared for many decades that tomatoes were deadly poison. These South American Indians ate tomatoes and enjoyed them when Cortez first saw them.

Among other food contributions of the "New World" were squash, pumpkins, sunflower seeds, artichoke, maple syrup, strawberries and various other berries and wild grapes.

If the whole truth is told, however, there was a "bitter berry" in the brewing, for with these toothsome and useful foods came poison ivy, which is also a distinctly American plant.

The Three-Piece Ensemble Promises to Continue in Favor in Summer Fashions

Gowns Are Designed to Help Women Look Young by Accentuating or Simulating the Aspect of Slenderness.

By MADAME VALLEE
Designer and Director of Marjorie et Armand PARIS.

FASHION is very rich in ideas this spring, and I think we shall see a more varied variety during the coming summer than has been the case for many seasons past.

The dominating note of my collection is its youthful and "Parisian" aspect. Of course there are models that are admirably adapted to the middle-aged woman, but when I say that the collection is youthful I mean that the gowns are designed to accentuate that effect, to help women look as young as they can by means of charming and becoming details that emphasize the natural beauty of a slim figure and give the aspect of slenderness, by means of their scientific cut, to figures that are not quite so slim as they would like to be.

In my opinion the three-piece ensemble will continue to play an important part in the fashions of the next few months. We have been so refined in our taste that the coat that does not match absolutely harmonize with the dress it accompanies has practically ceased to exist. A woman no longer orders a coat and several dresses. She orders, if she has limited means, two coats and two dresses, sometimes adding to the variety of her wardrobe by choosing two more frocks, one to accompany each coat, made perhaps of a printed fabric instead of a plain one, but matching the color of the coat in its basic shade so that the effect is that of an ensemble, whichever dress is worn.

But, apart from the long coats lined with foulard that accompany printed dresses and the long, plain coats, often of a single color, there are many delightful ensembles made entirely of foulard or some printed fabric. One of the most popular ensembles in my new collection has a little coat of solid pink and black crepe de chine, made hip length and forming a charming finish to the dress of the same material which it accompanies. Then we have the short jacket worn with the dressy type of afternoon gown. I have made this in yellow crepe de chine, trimmed with just a touch of black and white, and the coat is finished with a pleated flounce that dips at the back slightly, this movement being followed by the double tier skirt.

There are two distinct silhouettes in my new collection. One is that inspired by the mode of 1868. Its leading characteristic is the basque. Usually this basque is cut on forme, so as to look like what is called, I believe, in America, a peplum. To give variety, sometimes the basque is pleated to accentuate the movement of the skirt, which may be trimmed with pleated flounces. With the basque the corsage outlines the lines of the figure; sometimes it is almost tight fitting, and the waistline is much higher than previously, being practically normal. The skirt under the basque is full and of irregular length, the irregularity being also a characteristic of afternoon gowns as well as of evening dresses. The effect of this is much dressier than was the former hemline that was straight all-around. This makes me hope that our race courses and club restaurants will have a much smarter appearance this summer than that the standard of haute couture will once more become definitely established in daytime fashions.

My second silhouette has a straight corsage, soft and sometimes bloused at the neck, or a Princess line. In this type of gown the waistline is long, or at any rate not definitely accentuated. The skirts in this second category are longer and are widened at the hem by means of an extreme cut or by hanging panes. The details of the new fashions are rich and varied. One is the fashion for little boleros or jackets of something sparkling to wear over evening gowns. These are very useful, for sometimes an occasion arises when a woman does not

know exactly how full dress her evening gown should be. She does not want to appear less in grand tenue than the other women, for that would imply lack of respect to her hostess. On the other hand, she does not wish to be the only woman in a really full ceremonial evening dress if the other women are to appear in simple gowns, for nothing militates more against chic than being overdressed. Now if she slips one of the little boleros of tulle or chiffon, lightly embroidered with tulle or sequins over her low-cut evening gown it will be transformed into something that looks like a very chic semi-evening dress. Any invention that helps one not to make a mistake and be fully equipped at one time for two separate occasions is a boon that all smart women will appreciate.

I should just refer to sports clothes in an article about fashion, for although they have been banished from the all-day position they once held no woman's wardrobe is complete without them.

The sports silhouette remains straight with fairly short skirts, though let me add you never see a Parisienne in a skirt that does not cover her knees. This she would consider the worst of taste, and it really is not pretty to display the knees, so I hope the too-short skirt will completely disappear from the public places of every country.

Little coats are worn, and sometimes a long straight coat, in the new loosely woven tweeds that are so chic and shown in such endless variety this season.

Blouses instead of jumpers are often worn. Some of these are made of men's tie silk which is pretty and made in a number of attractive small designs in gay colors.

I am using some large check surah scarfs in some of my sports models, swathed round the waist and another one knotted round the neck.

For town wear there are plaids in all colors and some attractive.

Plaids are very chic this season, especially for sports and morning wear. Madame Vallee takes a small plaid in brown and beige and combines it happily with a plain tobacco linge for this chic sports ensemble.

Nothing is smarter than the "classique" for the morning tailored, says Madame Vallee, and she demonstrates the fact in this suit of gray-blue linge with a group of plaids at the side of the skirt.

Full flowing feminine lines characterize this favorite model designed by Madame Vallee in yellow tulle, made with a long dipping hemline. Its trimming consists of applications of gold lame.

Kitchen Scales
A careful housewife has a set of kitchen scales weighing up to 25 pounds. She weighs her food from time to time and keeps an eye open to see that she gets correct weight. The scales are of particular value if a great deal of the ordering is done by telephone.

NEW GAY COLOR in Everything— Easy with Tintex

Paris says lively, lovely color for your wardrobe. Interior Decorators say bright, cheerful color is home-decoration.

And so... smart women everywhere rely more and more on Tintex. They use it for dresses, sweaters, silk "undies," curtains, drapes, etc. For they know that Tintex... quickly and easily... satisfies every home-tinting and dyeing need.

See the season's colors... on actual samples of silk... at your dealer's. Ask to see the Tintex Color Card!

Don Cupid Objects To Phone Service
CUPID has received a staggering setback in his campaign at Hartford, Conn., the more marriages.

The latest telephone directory came out with 20,000 changes in numbers. Now it has developed that many young men had an extensive acquaintance among "Mays" and "Glories" and what have you, their only clew to the girls' acquaintance.

The new directory has left some young men considerably annoyed. They have complained to the telephone company. A man, they contend, should not set out to call Helen and get May. Or, even worse, call May and get a butcher shop. Many romances, they claim, have been blighted.

Correct Manicuring

Styles change in the manicure as well as in hats and frocks. Smart women now are following Fashion's demand for natural looking finger nails. That means only Gloray, for this wonderful lasting nail polish imparts the most beautiful, natural, healthy pink tint now most exclusively stylish among discriminating people.

Beauty shops have long delighted their patrons with marvelous Gloray. Now, you can make the home manicure as immaculate and correct. In three shades, to match your complexion perfectly—and in double quantity bottles at same price as the ordinary polishes! Try Gloray—TODAY, At All Dealers.

Capture the thrill of drinking a finer, purer, mellower ginger ale

LIKE the cooler air of the mountains... like the fresher breeze from the sea... like the keener pleasure of meeting old friends... is the thrill of "Canada Dry."

Its "dryness" is more refreshing. Its sparkle has a quicker, finer quality. And after you drink it, you then will know how mellow and mild it is... mild as an autumn day... its mellowness an Indian summer of delight.

Pure Jamaica ginger subtly flavors it. Absolutely high-quality ingredients assure its purity. Expert blending and balancing produce its satisfying, full-bodied quality.

Countless homes serve it regularly and often. Order it today. It is a better, finer, purer ginger ale.

"CANADA DRY"
The Champagne of Ginger Ales

ANSWERS TO QUERIES

The column heretofore appearing in this section of the Post-Dispatch under the above heading has been discontinued. For the benefit of those interested, the following information is given:

Answers to legal questions, and, in some cases, legal service, may be obtained from the Legal Aid Bureau, 202 Municipal Court Building.

Medical questions will be answered, or treatment given, at the Health Department Clinic, City Hospital No. 2, 1515 Lafayette avenue; dispensary branch, 3833 Market street; City Hospital No. 2 (Negroes), 2945 Lawton boulevard; or the Hospital Commissioner, Room 202 Municipal Court Building.

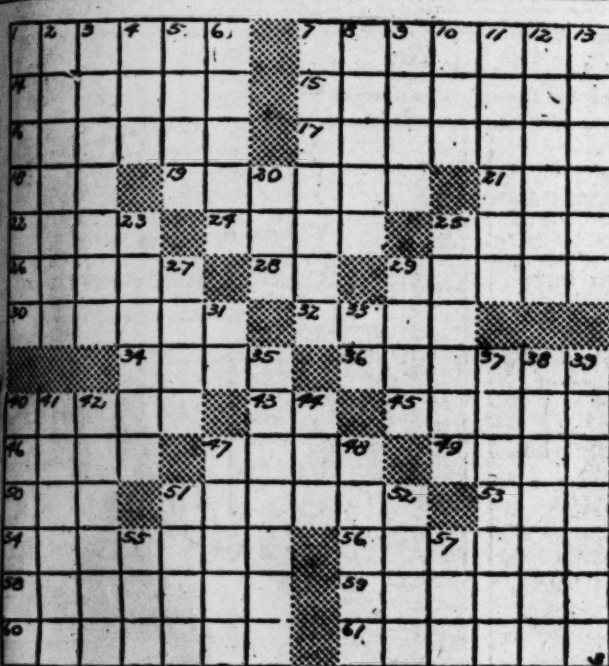

Information as to city government, offices and ordinances

may be obtained at the information desk, first floor, City Hall.

Information concerning the Federal Government will be furnished by the proper government departments in the old Customs House, 222 North Third street, or the Federal building, Eighth and Olive streets. If the questions concern the Federal statutes, they will be answered by the United States District Attorney, Room 222 Federal Building, Eighth and Olive streets.

The files of the Post-Dispatch, and a news index, may be consulted at this office for information which has been published.

FACES DENTISTS SEE.

FIFTEEN minutes to wait for the dentist. Fifteen minutes in which to fume and rail against all people who are late for appointments. Fifteen minutes in which to watch the patient ahead—

to see her face as the dentist sees it.

She frowned, she scowled, she contorted. Her forehead was ginghamed with lines, her eyes were screwed up into a thousand puckers. She was evening putting wrinkles in her nose! You've never seen such facial gymnastics! And she held the poses for full five minutes at a stretch!

"Relax," commanded the wielder of the chisel and the drill. Her grimaces became worse.

"Let go," cooed the specialist in teeth, thinking perhaps the lady didn't know the meaning of the verb to relax.

Lon Chaney has nothing on that woman. She was positively out-faceling him!

"I assure you," reasoned the man in the white coat, with truly admirable calm, "it won't hurt nearly so much if you will stop tensing yourself."

No use. The woman seemed to be trying to make a record of some

sort—the woman of a thousand and one faces maybe.

"Madam, you are making new wrinkles for yourself. You are positively aging!" warned the dentist in despair.

It worked like a charm. She began smoothing out, so to speak. From then on the "operation" went along nicely for both parties concerned. Dr. C is a man with imagination, we decided.

When this department's turn came, she concentrated on her face instead of on the drill. She made up her mind to maintain a smooth

brow. And maybe it was mere imagination or maybe it wasn't, but the little stunt seemed to lessen the discomfort. And when she emerged from the chair and looked at herself, she wasn't half the wreck she usually is after a drilling.

So we pass the hint to you for whatever it may be worth. We offer it as a free gift to the several dentists who are in the habit of reading. The Beauty Shop, as well as to all the patients. We suggest that you give it a trial, at any rate.

Moreover, we can think of many

difficult occasions on which it may work. Scolding a naughty husband, for instance, or giving a negligent tradesman a piece of your mind.

Save your face! The weather is hard enough on it.

(Copyright, 1929.)

Schools Concert on Air Tomorrow.

"Fun in Music" and "The Symphony" will be given an exposition by Walter Damrosch and a symphony orchestra in the RCA Educational Hour, at 10 o'clock tomorrow morning over KWT.

Grades five and six will be ap-

pealed to in the first half of the lecture-concert, which will open with the allegretto movement from Beethoven's "Symphony No. 8."

The program:

First Half: "Fun in Music" Allegretto, from "Symphony No. 8" Beethoven Andante, from "Surprise" Symphony Haydn

Second Half: "The Symphony" First and Second Movements from "Symphony No. 5" Beethoven

Mushroom Souffle

Two tablespoons butter, 2 table-

spoons flour, 1/2 cup milk, 1/4 pound

mushrooms, 3 eggs beaten separately, salt and pepper. Blend butter and flour and add milk, salt, pepper. Cook until smooth, stirring constantly. Wash and peel mushrooms and fry in butter for 5 minutes. Chop finely and add to the cream sauce. Add beaten yolks, cool and then add the stiffly whipped whites. Pour into a buttered baking dish and place in pan of boiling water. Bake in a moderate oven for 25 minutes. Serve immediately. A lovely, delicate company dish.

Brisk Rally Just Before the Close After Steady Selling—Aviation Shares Lead Rebound.

HIGHEST LOAN BASIS SINCE MARCH PEAK

Fair Display of Strength in Forepart of Day on Unchanged Discount Rate at New York.

By the Associated Press.
NEW YORK, April 26.—A brisk rally in prices set in just before the close of today's stock market after the call money rate had been put up to 16 per cent, the highest level since the famous March squeeze during which the rate jumped to 20 per cent. Prices generally closed lower, however, as the successive advances in the rate had induced rather steady liquidation by frightened investors and speculators and some short selling. The late rally was due largely to covering operations by floor traders.
The market had opened with a fair display of strength as a result of the retention of the 5 per cent rediscount rate by the New York Federal Reserve Bank. There was a steady flow of call money from the start, and the several advances in the rate were accompanied by only a nominal calling of loans. With nearly \$50,000,000 in new financing today, and the heavy cash-and-carrying funds in connection with payrolls, dividends and interest payments, a heavy strain was placed on New York's credit facilities.
Favorable Earnings Reports.
There was little in the day's business news except a series of earnings statements most of which made favorable comparison with the corresponding periods a year ago. The weekly mercantile reviews continued optimistic in tone although unfavorable weather has retarded rural trade and spring planting. Bradstreet's report in "despite all drawbacks, the general tone is far more cheerful than a year ago," while Dun's states that "results during the month which soon will end have been mainly favorable, evidences of progress still predominating."
Airplane shares led the late rally. United Aircraft dropped from an early high of 119 1/2 to 118 1/2 and then rebounded to 121. Wright Aeronautical from 237 to 244 and snapped back to 252. Curtiss ran up more than 6 points above last night's close. Case Threshing Machine broke 15 points to 330, duplicating the year's low, and then snapped back to 400. Hupp Motors declined to a new low level for the year at 51.
Range of Some Recent Favorites.
Such recent favorites as Crosley Radio, Bethlehem Steel, A. N. Byers, National Distillers, Calumet & Arizona and International Combustion sold 3 to nearly 4 points below yesterday's final quotations when the selling movement was in full swing, but they made partial recovery in the late rally. U. S. Steel common, General Motors, General Electric, Consolidated Gas, Union Carbide, Yellow Truck, Atchafalpa and Union Pacific showed only fractional recessions.
Commodity markets were mixed. Establishment of a new level for the year by German marks was the only development of importance in the foreign exchange market.

Two Reports in Market.
Two quarterly reports by large corporations—Bethlehem Steel and General Motors—brought disappointment to speculative holders the former because of the announcement of an additional stock offering, and the latter because of smaller earnings in the face of record-breaking sales. From a long-range point of view, both reports were accepted as constructive, however, because the new financing will supply Bethlehem with sufficient funds to expand without increasing funded indebtedness, while General Motors' smaller earnings were due to unusually heavy charge-offs for new models and the delayed delivery of the new cars.
Closing stock prices with other tables and market news will be found on pages 55, 56 and 57.
